Board of Directors' Report Regarding the State of the Company's Affairs

Report for the Second Quarter of 2020

The Board of Directors of IDB Development Corporation Ltd. ("IDB Development" or "The Company") is pleased to present the Board of Directors' Report as of June 30, 2020, which includes a review of the Company's position and principal operations for the second quarter of 2020 ("The Reporting Period"). The report has been prepared in accordance with the Securities Regulations (Periodic and Immediate Reports), 5730-1970, and assumes that the reader is also in possession of the Company's complete periodic report for the year ended December 31, 2019 ("The Periodic Report"), and the financial statements for the year 2019, as included in the Periodic Report ("The Annual Financial Statements").

The Company is a private company which qualifies as a debenture company (as defined in the Companies Law, 5759-1999 ("The Companies Law")). In recent years, the Company has worked primarily to stabilize and improve its financial position and liquidity, and as part of the above, it has placed a particular emphasis on the evaluation of various financing alternatives, including the recruitment of equity and debt (including the receipt of subordinated loans from the controlling interest), the issuance of debentures, inter alia, for the purpose of refinancing debts and servicing its debts to its financial creditors, and to finance its operating activities; and on investing managerial efforts in private companies which are directly held by the Company, including the evaluation of various possibilities for optimizing and improving the performance of investee companies, inter alia, with the aim of maximizing their value and improving their performance and, in the appropriate cases, for their realization.

Within the framework of the Company's response to the provisions of the Law to Promote Competition and Reduce Concentration, 5774-2013 ("The Concentration Law"), in November 2017, the Company sold all of its shares in Discount Investment Corporation Ltd. "DIC" to Dolphin IL Investments Ltd. ("Dolphin IL"), a private company incorporated in Israel, which is wholly owned by Dolphin Netherlands B.V., a corporation that is controlled by the Company's controlling interest ("The Transaction"). It should be noted that certain risk factors and areas of uncertainty, including legal risks, regulatory risks, changes in prices and in characteristics of competition, risks relating to DIC's market value and assets, and other business risks, may harm the debt service capacity of Dolphin IL, and therefore also the repayment ability of Dolphin IL against the debenture and collateral that was provided by Dolphin IL within the framework of the transaction. The Company is therefore monitoring DIC's operations and its value.

See Note 4.H to the financial statements for details regarding a proposal that the Company and the trustees for its debentures have received from Dolphin IL, dated June 2, 2020, and as updated in June 21, 2020 and June 28, 2020, for the strengthening of the Company's capital structure, by way of an arrangement between Dolphin IL, the Company and the holders of its debentures.

The Company's financial position -

The Company has an equity deficit attributed to the shareholders, which amounts to NIS 1,008 million as of June 30, 2020, as well as ongoing negative cash flows from continuing operating activities; The Company's net asset value (based on the market prices of its marketable holdings as of a time shortly before the date of the publication date, with the addition of the monetary value of other assets, and less its financial liabilities) is negative, to an extent of NIS 862 million. Furthermore, the Company's debentures are traded at particularly high yields, and the absence of uncharged assets will, apparently, make it difficult for the Company, in practical terms, to restructure its financial liabilities by way of the raising of debt. For additional details regarding the Company's financial position, see Note 1.B. to the financial statements.

See Note 4.H. to the financial statements regarding a proposal that the Company and the trustees for its debentures have received from Dolphin IL for the strengthening of the Company's capital structure, by way of an arrangement between Dolphin IL, the Company and the holders of its debentures. As of the reporting date there is no certainty in connection with the completion of the arrangement and the timing of such completion, which are dependent upon the receipt of various approvals, which have not yet been received at this stage and which are not under the Company's control.

The novel Corona virus (COVID-19, "The Corona virus") and the continued outbreak thereof, has led to a decline in Israir's volume of orders and flights, which is expected to significantly affect Israir's activity and results, the timing of the sale of the Company's holdings in IDB Tourism, and the consideration, which the Company expects to receive in such a sale. The Corona virus outbreak is also having a significant impact on the capital markets, such that in the first quarter of 2020, a significant decline occurred in the market value of the Company's holdings, primarily the shares in DIC, which form collateral for the debenture from Dolphin IL and its investee companies, and in the shares in Clal Holdings Insurance Enterprises.

Board of Directors' Report Regarding the State of the Company's Affairs (Continued)

The declines in DIC and in its investee companies was offset, partially, in the second quarter of 2020.

The aforementioned declines are also affecting both the Company's net asset value (based on market prices), and the Company's ability to realize those holdings for the purpose of repaying its liabilities. For additional details regarding the effect of the Corona virus, see section 1.1 below.

Shortly before the time of the publication of the report, the Company was left with low balances of cash and cash equivalents. The more the impact of the Corona virus outbreak deepens and/or the longer it continues, the more difficult it will be for the Company to meet the settlement of its liabilities on time.

In August 2019, Dolphin Netherlands, the controlling interest in the Company, delivered an irrevocable commitment to the Company to perform an injection of equity into the Company in an overall amount of NIS 210 million, in three equal annual tranches, the first of which was executed in September 2019 as a subordinated loan. The balance of the injections will be performed, subject to and in accordance with the abovementioned commitment, in consideration for shares in the Company or a subordinated loan under similar terms to the subordinated loans that have been provided by the controlling interest. See Note 7.C.2 to the annual financial statements for details. In August 2020, the Company received a letter from Dolphin Netherlands pursuant to which it intention is to examine its commitment to inject equity into the Company. See Note 11.G. to the financial statements for details regarding the letter and regarding the Company's response to the said letter.

See Note 4.F to the financial statements for details regarding the Company's letter of commitment vis-à-vis the holders of the Company's debentures.

See Note 4.I to the financial statements for details regarding Dolphin Netherlands' commitment to avoid executing certain acts.

See 1.4.4.4 below for details on the Company's forecasted cash flow statement and the headquarters companies wholly owned by the Company (excluding IDB Tourism).

At a time shortly before the publication of the report, there is a representative for each of the series of debentures (a separate representative for each group) as well as an economic consultant and a legal advisor. See Note 8.E.2 to the annual financial and Appendix B to the Board of Directors' report, which follows.

On June 29, 2020, the Company announced that pursuant to a decision by its Board of Directors on June 28, 2020, the payments of interest on the debentures (Series I), whose payment had been deferred, in a previous decision, from June 18, 2020 to June 30, 2020; as well as the payments of the interest on the debentures (Series N and O), which pursuant to the trust deeds that were supposed to be paid on June 30, 2020, would be deferred and paid on July 7, 2020. The payments were executed on July 7, 2020.

See Note 4.H to the financial statements for details regarding a draft offer that the Company and the trustees for its debentures have received from Dolphin IL for the strengthening of the Company's equity structure, by way of an arrangement between Dolphin IL, the Company and the holders of its debentures.

On July 7, 2020, a meeting of the holders of the debentures (Series N) decided not to call for the immediate repayment of the unsettled balance of the Company's debt to the holders of the debentures (Series N). On August 18, 2020, a meeting of the holders of the debentures (Series N) decided to convene a meeting on September 18, 2020, on the agenda of which will be calling for the immediate repayment of the unsettled balance of the Company's debt to the holders of the debentures (Series N). Furthermore, on August 18, 2020, a meeting was held of the holders of the debentures (Series O), in which it was decided not to convene a meeting of the holders of the debentures (Series O) for the purpose of making a decision regarding calling for the immediate repayment of the debentures (Series O) until December 1, 2020.

See Appendix B to the Report of the Board of Directors and Note 4E to the financial statements for details regarding the rating for the Company and for its debentures in the second quarter of 2020 and the ratification of such rating in July 2020. The terms of the Company's debentures and the rating thereof are detailed in Appendix B below and in Note 8 to the annual financial statements.

The Company's financial statements as of June 30, 2020 include a note and the drawing of attention by the Company's auditors regarding the existence of significant doubts regarding the Company's continuing existence as a going concern.

Board of Directors' Report Regarding the State of the Company's Affairs (Continued)

This is as a result of the Company's financial position, its cash flows and its ability to service its liabilities, including the equity deficit that is attributed to the Company's shareholders, the Company's negative net assets value (based on the current market prices of its marketable holdings with the addition of the carrying values of the other assets and less its financial liabilities), for the purposes of the cash that is required by the Company for the settlement of its liabilities, also in the short-term, which relies on the realization of assets, where the timing of their realization is not under the Company's control and also for the purposes of the cash that is required for the Company to settle its liabilities at the timing required, which is dependent, inter alia, on factors that are not under its control and primarily on the value of the debenture from Dolphin IL and the cash flows that will derive therefrom until the time of the end of the Company's liabilities to its creditors, and also to the notification from the trustee for the Company's debentures (Series N), regarding the convening of a meeting of the holders of the debentures (Series N) on September 18, 2020, on the agenda of which will be calling for the immediate repayment of the unsettled balance of the Company's debt to the holders of the debentures (Series N). See Note 1B to the financial statements for additional details.

The Company's main investments

As of the date of the financial statements, the Company's main investments are: the debenture from Dolphin IL (which was received in a transaction for the sale of the Company's holdings in DIC in November 2017, as aforesaid), Clal Holdings Insurance Enterprises, IDB Tourism and IDBG.

Clal Holdings Insurance Enterprises

During the reporting period and in July 2020, the Company completed the balance of the swap transaction, which it had executed on shares in Clal Holdings Insurance Enterprises and as of a time shortly before the publication of the report it has only a direct holding in shares in Clal Holdings Insurance Enterprises at a rate of 8.5% of its issued share capital. The shares, or the consideration in respect thereof, are charged in support of the holders of the debentures (Series O). Autonomous guarantees, which had been provided by the controlling interest in the Company as collateral for the swap transactions were released in favor of Dolphin Netherlands upon the end of the swap transactions in June and July 2020 and the charged deposits that had been made available as collateral for the swap transactions were also released and they were used primarily for payments of interest to the holders of the Company's debentures on July 7, 2020, as mentioned above. See Sections 2-4 of Note 3.B to the financial statements for details.

After the receipt of the approval of the Court for the deferral of the sale of the next tranche pursuant to the outline, the Company is committed to the sale of an additional 3.5% of the shares in Clal Holdings Insurance Enterprises by September 2020.

IDBG -

IDBG is engaged, through a real estate corporation, in the construction and operation of a commercial and office project in Las Vegas, Nevada (USA) ("The Tivoli project"). As of December 31, 2019, the Company and Property & Building held the entire share capital of IDBG, in equal parts. In February 2020, the loans that had been extended by Property & Building to IDBG were converted, in a manner that diluted IDB Development's share in IDBG's share capital and in the right to the repayment of the shareholder's loans to a rate of 25.82% (the remaining 74.18% are held by Property & Building. See Note 3.D.1 to the financial statements for details. In June 2020, the Company and Property & Building signed on an agreement for the sale of the Company's entire rights on IDBG for consideration of 27.8 million Dollars. The approval of the transactiuon was subject, inter alia, to the approval of Property & Building's general meeting, which was convened on June 23, 2020 and which decided not to approve the commitment. See Note 3.D.2 to the financial statements for details.

See Note 3.D.4 to the financial statements for details regarding the damage caused to the Tivoli project by the outbreak of the Corona virus.

Board of Directors' Report Regarding the State of the Company's Affairs (Continued)

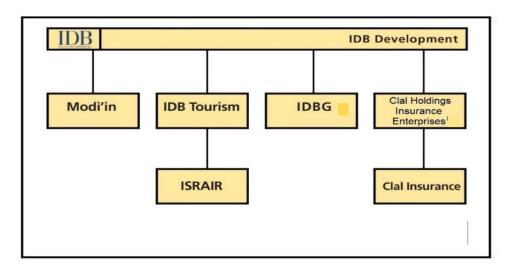

The Company's main investments (Continued)

Israir -

Further to that stated in Note 3.C.1. to the financial statements, regarding the impact of the spread of the Corona virus on Israir's operations and the actions that it has taken in order to be cope with the situation, In July 2020, Israir received approval from the Ministry of Finance and from two banking corporations for the making available of a loan of NIS 136 million with a 75% guarantee from the state, Israir signed on a loan agreement, as aforesaid, in an amount of NIS 75 million. The loan bears interest of Prime +1.5% a year for a period of 7 years, where no principal will be repayable in the first eighteen months. Israir has also received confirmation for the receipt of the baalance of the amount, in an amount of NIS 61 million with a 75% guarantee by the state. See Note 3.C.4 to the financial statements for details.

As of June 30, 2020, the companies that are held by the Company are IDB Tourism (100%), Clal Holdings Insurance Enterprises (a direct holding of 8.5% and an investment through a swap transaction in an additional approximately 2.1%), which was closed in July 2020 as mentioned above and IDBG (25.82%), which are presented under discontinued activities and Modi'in Energy (19.1%), an investee partnership that is treated under the equity method of accounting.

The following is a diagram detailing the significant companies, for the purpose of this report, which are held by the Company as of June 30, 2020

In the financial statement, the net income related to the income is attributed to the shareholders in the Company and to the non-controlling interests. The data on income that are presented in the Report of the Board of Directors relates to the income that is attributed to the shareholders in the Company, unless otherwise stated.

1.1 General

See Sections 1.4.3 and 1.4.4.4 below for details regarding the Company's net assets value and regarding its forecast statement of cash flows.

The state of the businesses of the Company's main holdings, their operating results, cash flows, changes in equity, and their value and the value of the debenture from Dolphin IL, affect the state of the Company's business, operating results, equity and cash flows. The value of the debenture from Dolphin IL is primarily affected by DIC's net asset value, whose shares are charged to secure payments of the debenture.

In addition, the Company's position, operating results, equity and cash flows are also affected by the Company's headquarter activities, which include financing expenses and income, and general and administrative expenses.

The Company's business results, and sometimes directly the equity attributed to its shareholders, may fluctuate (in accordance with current accounting principles) considerably between the various reporting periods, due to, inter alia, the timing and extent of realizations which are executed by the Company, due to the effects of changes in prices of securities on the capital market and the value of assets, as well as changes in the Company's financing expenses.

The Company's business results, its cash flows and the value of its net assets are affected, inter alia, by the state of the capital market and the economic situation in the economy and in the international markets. A change in the trend in the capital market in Israel and globally may affect the values of the assets and the prices of the marketable securities that are held by the Company, directly and indirectly, it may, in certain cases, cause write-downs or the recording of a loss, whether in the statement of income and whether in the statement of comprehensive income, and also affect the Company's ability to generate an appropriate consideration and profits on the realization of the Company's holdings. In addition, such a change in the trend could affect the recruitment of funds or the finding of sources of financing or the financing terms where financing is required for the Company's operating activities.

Instability in the markets and economic slow-down- situations of instability in the global capital markets could occur as a result of a wide range of local and global factors such as, an economic crisis, political uncertainty, pandemics, a state of emergency and conflicts between countries. Such instability may find expression in strong fluctuations in the prices of securities and it may lead to an economic slow-down, financial crises and impairment of the ability to recruit sources of financing.

In addition a worsening of the state of the global economy in general may have a significant adverse impact on the Group companies' revenues and on the results of their operations. The Corona virus (Covid-19) broke out recently in China in the first quarter of 2020, from where it has spread to the rest of the world, and has caused significant worry and uncertainty, which led to the imposing of restrictions in public places and in private premises. During the course of the second quarter of 2020, there was an additional outbreak (a second wave) of the virus in Israel, which has led and may lead to the imposition of additional and/or new restrictions. Following the outbreak of the virus, the share and debenture markets have been trading with a trend of sharp falls and there is concern regarding a contraction of global economic activity.

As of the reporting date, the spread of the Corona virus is having a significant impact on the Company, where in the second quarter of 2020 there has been a significant decrease in the market value of the Company's holdings, primarily in shares in DIC, which form the collateral for the debenture from Dolphin IL and its investee companies and in the shares in Clal Insurance Enterprises Holdings.

Such decreases have an impact on both the Company's net asset value (based on market prices) and also on the Company's ability to realize those assets for the purpose of repaying its liabilities.

In addition, the outbreak of the virus has had a significant negative impact on local and global economic activity, and its continuation over time could, inter alia, affect consumer habits and the extent of consumption in various sectors in the economy and lead to a continuation of the serious damage caused to them (such as the tourism, aviation and real estate sectors).

In addition, as part of the global handling of the Corona virus and the attempts to halt its spread, countries across the world (at the recommendation of health bodies and medical bodies) have adopted a method of locking down people and even certain populations who come within the definitions that have been set and which are varying dynamically. Furthermore, trans-border traffic has been reduced significantly and has led to a significant decrease in the volume of air traffic and to a slow-down in maritime transportation.

1.1 General (Continued)

These factors might also have a significant impact on the availability of manpower and equipment in the fields of activity of the Group companies and DIC's investee companies, in a shortage in the supply of raw materials and construction materials and could lead to a delay in the timetables for the execution of activity. All of these could have an adverse impact on the Group companies' financial results, which includes, inter alia, it could impact their ability to distribute a dividend to DIC and/or the Company, as the case may be.

Furthermore, such implications could have negative impacts on the Company's liquidity and that of its investee companies, the state of their businesses, their credit rating and their ability to raise financing for their operations, insofar as this may be required, and also even on their financing terms. It should be noted that the potential damage from the Corona virus for global growth and the global economy and the impairment of the ability of manpower and a shortage of equipment in dependent on the level of the speed and the ability to reduce its spread globally and at this stage the Company is unable to assess the length and the strength of the crisis and its full implication for the Company's operations and those of its investee company and on DIC and on their results.

It is clarified that the various assessments and the conjectures that are detailed in the above paragraphs regarding the Corona virus and its possible impacts constitute forward looking information, within the meaning of that term in the Securities Law – 1968, the realization of which is uncertain and is not under the Company's and its investee companies' control. These assessments may not be realized or they manner that is significantly different, inter alia, insofar as changes may occur in the spread of the virus and the directives issued by the relevant authorities in Israel and globally.

See Notes 3.C.1, 3.D.4 and 3.E to the financial statements for details regarding the implications of the outbreak of the Corona virus on the operations of Israir, IDBG and Modi'in, respectively.

The Group's operations are affected by many additional external factors (see sections 7 and 22 in Part A of the Periodic Report and Section 2.1 and Part A of the quarterly report (significant changes and new matters that have occurred in the corporation's business).

1.2 Results for the first half and second quarter of 2020

The Company ended the first half of 2020 with a loss of NIS 749 million, as compared with a loss of NIS 252 million in the comparative period in the previous year. The Company had income of NIS 95 million in the second quarter of 2020, as compared with income of NIS 76 million in the comparative period in the previous year. In 2019, the Company lost NIS 424 million.

See section 1.7 below for details regarding primary profit (loss).

1.3 The segments and their contribution to the Company's results, by operating segment

administration and others 8		(84)	(123)	(39)	(71)	(98)					
Net income (loss)for the period		(749)	(252)	95	76	(424)					

The presented data relate to the results of the investee companies, as presented in their financial statements, without taking into account the Company's rate of holding in them and without taking into account, cancelled transactions between the companies and between segments.

The results of IDBG are reported in USD and are presented in this table in NIS, based on a convenience translation according to the average exchange rates during the relevant periods. The data include financing expenses of IDBG in respect of loans which were provided to it by Property & Building, as detailed in Note 3.D.2. to the annual financial statements (a total of NIS 3 million, NIS 13 million, NIS 5 million and NIS 25 million in first half of 2020, in first half of 2019, in the second quarter of 2019 and in the year 2019, respectively), but not including the effects of the financing in respect of the loans which were provided by the Company and Property & Building, (pro-rata to their holding rates).

For details, see Note 3.A. to the financial statements. An economic report in connection with the fair value of the debenture as of September 30, 2020, is attached to the financial statements. The contribution to profit, includes primarily the change in the fair value of the debenture. The contribution to profit is stated after offsetting amounts of NIS 12 million, NIS 32 million and NIS 36 million in respect of interest received on account of the debenture (in the first quarter of 2020, in first quarter of 2019 and in the year 2019, respectively).

DB Tourism is treated as an asset that is held for sale and is presented, accordingly, at the lower of its carrying value in the accounting records and its fair value less selling expenses. The contribution to profit does not necessarily reflect IDB Tourism and Israir's results as reported by them.

The contribution to profit primarily represents the change in market value of the Company's holding in Clal Holdings Insurance Enterprises (including in respect of swap transactions, as detailed in Note 3.B.3 to the financial statements, and is presented in the statement of income under discontinued operations. The holding rate as of September 30, 2019, includes 15.3% in direct holdings and 20% in swap transactions.

In accordance with the provisions of IFRS 9, said amounts include changes in value of subordinate loans which are attributed to market changes. Additional amounts, which are attributed to changes in credit risks of the Company were recognized under other comprehensive income. For details, see section 1.4.7 below, and note 6 to the financial statements.

⁸ See section 1.9 below.

Leverage ratio [LTV]			173%

- (1) NAV Net Asset Value. Constitutes the Company's net asset value, i.e., the total value of the Company's assets (in accordance with that stated in footnote 14 below), after deducting its net financial liabilities. NAV is a standard economic indicator for evaluating the economic equity of companies, mostly holding companies such as the Company. The main gaps between the Company's NAV and capital attributable to Company's owners as presented in the statement of financial position were mostly due to the following reasons:
 - A. The measurement of the Company's investments at market value, which is different from measuring them in accordance with generally accepted accounting principles (mostly with reference to the investment in IDBG, as reflected in the above table, whose measurement in the statement of financial position was affected by the initial adoption of IAS 28, as specified in Note 2.M.1. to the financial statements).
 - B. Non-inclusion of the discount and the cost of obtaining collateral for the Company's liabilities from Dolphin IL as part of the Company's financial debt (an overall amount of NIS 123 million), as presented in the statement of financial position, under the Company's assets and liabilities.

The Company uses this indicator, inter alia, to identify warning signs, if any, including for the purpose of providing due disclosure in the financial statements. It is hereby clarified that NAV is not based on generally accepted accounting principles, and does not constitute an alternative to the information which is included in the financial statements.

- Negative NAV indicates an excess of liabilities over assets (which were mostly based on market data).
- (2) The leverage rate (LTV loan to value) is a standard economic indicator used to measure the leverage ratio of companies, and serves as the basis for measuring the ratio (in percent) of net financial debt relative to its asset value. Similarly to negative NAV, negative LTV also indicates an excess of financial liabilities over the Company's assets (which are moistly based on market data), and allows an understanding of the extent of the aforementioned gap in percent. It is hereby clarified that NAV is not based on generally accepted accounting principles, and does not constitute an alternative to the information which is included in the financial statements.
- (3) For the purpose of calculating the Company's net asset at a time shortly before the publication of the report, the value of the debenture from Dolphin IL was calculated according to the net asset value of the DIC shares, shortly at a time shortly before the publication of the report, as published in DIC's financial statements as of June 30, 2020 and which is attributed to shares in DIC, which are charged in support of the debenture (116,416,950 shares, with a net asset value of NIS 779 million), which is higher than the value of the shares as of August 18, 2020, (which amounted to NIS 626 million); with the addition of the market value of the debentures (Series I) which are held by Dolphin IL and which are charged in support of the debenture (with a value of NIS 17 million as of August 18, 2020), all of which less a dire sale discount of 10%. See Note 3.A. to the financial statements for details. See section 1.1 above for details regarding the consequences of the Corona virus outbreak on market prices, including on the Company's holdings.

Asset value is determined according to the value of the assets, as stated below: (A) In respect of holdings which constitute listed securities - according to their average market value during the last five trading days preceding June 30, 2020 (B) In respect of non-marketable holdings - according to their value in the Company's financial statements.

See Note 3 A to the annual financial statements for details of the sale of DIC shares and the terms of the debenture from Dolphin IL. As of June 30, 2020, the net asset value of DIC shares charged against the debentures, on the basis of what is stated in footnote 13 above, was NIS 593 million. The market value of the shares charged against the debentures was, NIS 511 million as of that time.

See Note 2.M.1 to the annual financial statements for details regarding the implications of the initial adoption of the amendment to IAS 28 on the balance of the investment in IDBG. The asset value of IDBG was determined based on the Company's share of IDBG's assets less its liabilities to external parties.

The leverage ratio at a time shortly before the publication of the report, based on market data and the debt as of at a time shortly before the publication of the report. In relation to non-marketable holdings, except for the debenture from Dolphin IL, which is measured as stated in section (3) above, the value of the holdings is in accordance with the carrying value in the Company's accounting records as of June 30, 2020.

⁽⁴⁾ Includes an amount of NIS 18 million on the repayment of a loan that had been received from IDB Tourism in the first quarter of 2019.

- 1.4 Select Data from the Financial Statements (Continued)
 - 1.4.4 The Company's financing sources (Continued)
 - 1.4.4.3 Financial restrictions and ratios -
 - 1.4.4.3.1 In connection with the Company's debentures (Series N), the balance of which (principal and interest) amounted to NIS 891 million as of June 30, 2020, the Company has undertaken, pursuant to the trust deed, to comply, with throughout the entire period of the debentures, the grounds for the adjustment of the interest rate, and financial covenants, which will be tested as of the date of DIC's financial statements, as follows::

	Calcu	lation results
Grounds for adjustment of interest rate / financial covenant	As of June 30, 2020	Shortly before the time of the publication of this report
DIC's long-term issuer rating shall be no lower than the base rating (ilBBB). In case of a fall of two (or more) rating under the base rating, a maximum cumulative addition of up to 0.75% will be added to the annual interest rate the will be borne by the debentures (Series N).	Rating of ilBBB with a negative rating outlook	Rating of ilBBB with a negative rating outlook
The asset value ¹³ less net financial debt ("Net asset value") shall be less than NIS 1.1 billion. In the event of an exception, an additional 0.25% will be added to the interest borne by the debentures (Series N).	DIC's net asset value - NIS 720 million*	DIC's net asset value - NIS 947 million
The ratio between DIC's net financial debt and its asset value shall exceed 85%. In the event of an exception, an additional 0.5% will be added to the interest that will be borne by the debentures (Series N).	The ratio between DIC's net financial debt and its asset value - 81%.	The ratio between DIC's net financial debt and its asset value - 63%.
A lien on shares in DIC in support of compliance with the undertakings to the debenture holders (Series N).	Approximately 99.3 million DIC shares were charged.	Approximately 99.3 million DIC shares were charged.

On March 31, 2020, the Company was not in compliance with these financial covenants, and accordingly, as from the time of the publication of the Company's financial statements for the first quarter of 2020, i.e. as from June 30, 2020 ("The time of the exceeding"), the debentures (Series N) bear interest at a rate of 5.75% instead of interest at a rate of 5% as was the case up to the time of the exceeding. See Note 4B to the financial statements for additional details.

In accordance with the results of the calculation, which are set forth above, as of June 30, 2002, as from the time of the publication of the financial statements for the second quarter of 2020, i.e. as from August 20, 2020, the debentures (Series N) will bear interest at a rate of 5.25%

The asset value is in accordance with the asset values as follows: (A) In relation to holdings which are marketable securities – in accordance with their average value on the Stock Exchange in the five trading days preceding June 30, 2020 (B) In relation to non-marketable holdings – in accordance with their value in DIC's financial statements.

1.4 Select Data from the Financial Statements (Continued)

- 1.4.4 The Company's financing sources (Continued)
 - 1.4.4.3 Financial restrictions and ratios (Continued)
 - 1.4.4.3.2 In connection with the Company's debentures (Series O) in an amount of NIS 237 million (principal), the Company has undertaken, pursuant to the trust deed, to comply throughout the entire life period of the debentures, with financial covenants, pursuant to which the total equity of Clal Holdings Insurance Enterprises will not be less than NIS 3 billion. Restrictions were also set on the distribution of profits and the creation of general and current liens (floating lien) as detailed in the trust deed See Note 8.B.4 to the annual financial statements for additional details.

According to the most recently published financial statements of Clal Holdings Insurance Enterprises (the financial statements for the first quarter of 2020), its total equity stands at NIS 5.3 billion.

1.4.4.3.3 The following are details regarding the liens which were provided towards the Company's debenture holders, in support of the liabilities to those holders:¹⁷

	Charged in support of	As of June	2 30, 2020	Shortly before the publication of this report			
Charged asset	the holders of debenture series	Amount	Rate of charged holdings	Amount	Rate of charged holdings		
		Millions of shares	%	Millions of shares	%		
Shares in DIC (1)	N	99.26	70.2	99.26	70.2		
Shares in Clal Holdings Insurance Enterprises ⁽²⁾ Consideration that	O	3.38	5.0	3.38	5.0		
will derive from shares in Clal Holdings Insurance							
Enterprises (2)	O	2.38	3.5	2.38	3.5		

(1) It should be noted that since November 2017, the Company does not hold shares in DIC (for details, see Note 3.A. to the annual financial statements). 99.26 million par value of the aforementioned shares were charged by Dolphin IL, through a specific first priority charge in support of the debenture holders (Series N), through a specific second priority charge in support of the Company, and through a specific third priority charge in support of the Company's debenture holders (Series I and N). In addition, 17.16 million shares in DIC are charged through a specific first ranking lien in support of the Company, and by a specific second ranking lien in support of the Company's debenture holders (Series I and N).

Accordingly, in total, 116.42 million shares in DIC, which are owned by Dolphin IL, as collateral for the debenture from Dolphin IL. The market value of such shares was NIS 511 million and 626 million as of June 30, 2020 and at a time shortly before the publication of the report, respectively. Furthermore, addition, as of June 30, 2020 and at a time shortly before the publication of the report, NIS 58 million par value of the Company's debentures (Series I) are also charged, which is deposited in an account of Dolphin IL.

The value of charged shares as of initial issuance was 133% of the debt balance, in accordance with provisions of the Trust Deed.

- 1.4 <u>Select Data from the Financial Statements</u> (Continued)
 - 1.4.4 The Company's financing sources (Continued)
 - 1.4.4.3 <u>Financial restrictions and covenants</u> (Continued)
 - 1.4.4.3.3 The following are details regarding the liens which were provided towards the Company's debenture holders, in support of the liabilities to those holders (Continued)
 - (I) (Continued)
 In addition, NIS 10 million par value of the Company's debentures (Series I), which are held by Dolphin IL, are charged to the Company under a first ranking lien and are charged under lower ranking lines in support of the holders of the Company's debentures (Series I and N). See Note 3.A to the annual financial statements for additional details.
 - (2) The Company has charged 3.38 million shares in Clal Holdings Insurance Enterprises, which constitute approximately 5.0% of the issued and paid capital of Clal Holdings Insurance Enterprises as of June 30, 2020 as well as the consideration for 2.38 million shares in Clal Holdings Insurance Enterprises ("The base shares"), which constitute approximately 3.5% of the issued and paid capital of Clal Holdings Insurance Enterprises as of June 30, 2020, in support of the holders of the debentures (Series O). See Note 4.D to the financial statements for additional details.
 - 1.4.4.4 <u>Projected statement of cash flows of the Company and its wholly-owned headquarter companies (excluding IDB Tourism)</u>

As of June 30, 2020, the Company has an equity deficit attributed to shareholders and ongoing negative cash flows from continuing operating activities, and the Company's auditors, in their review report, have drawn attention regarding the existence of significant doubts regarding the Company's continued existence as a going concern. See Note 1.B to the financial statements for additional details. In light of the aforesaid, a forecast statement of cash flows, containing details of the liabilities and the sources of financing from which the Company expects to be able to settle the liabilities during the period of two years ending June 30, 2022 is presented here. As a result of uncertainties, the statement of cash flows has been prepared by way of a description of the absorptions of funds whilst striving to find sources that will be sufficient to pay them. The basket of sources is described in comment (4) below:

The data in the forecast statement of cash flows, as aforesaid, do not include adjustments, insofar as may be required, in respect of a proposal from Dolphin IL ("The proposal") to the Company and to the trustees for the Company's debentures (Series I, N and O) to strengthen the Company's capital structure, by way of an arrangement between Dolphin, the Company and the debenture holders, which is based on an economic contribution to the Company on the part of Dolphin IL, together with the full or partial repayment (as the case may be) of the generality of the Company's debentures, the substance of which is intended to improve the Company's capital structure, since as of the reporting date there is no certainty in respect of the completion of the arrangement and the timing of its completion, which are dependent on the receipt of various approvals, which have not yet been receive at this stage and which are not under the Company's control.

The information provided in this section should be read together with the periodic report in its entirety, and together with the financial statements, and in particular, together with Note 1.B to the financial statements, regarding the Company's financial position.

Balance of liquid assets at the end of the period	-		

- (1) The balance of liquid assets includes cash, cash equivalents, short-term deposits and restricted deposits.
- (2) For details, see Note 7.C.2 to the annual financial statements. Furthermore, see Note 11.G to the financial statements regarding a letter that the Company has received from Dolphin Netherlands in connection with its commitment to inject equity into the Company as aforesaid and the Company's response to the letter. See Note 3.A.5.A to the annual financial statements in respect of amounts that Dolphin IL may receive in respect of principal and interest on the debentures (Series I), which it received as a dividend in kind from DIC.
- (3) In the Company's assessment, additional possible sources, which may be available to it in the period covered by the forecast are:
 - (a) The sale of the Company's holdings in IDB Tourism, see Note 3.C to the financial statements;
 - (b) The sale of the balance of the Company's holdings in IDBG, see Note 3.D.2 to the financial statements;
 - (c) The sale of the Company's holdings in Modi'in.
 - (d) Payments on account of the debenture from Dolphin IL under the force of the exercise of the Company's right to accelerate the payment of the debt pursuant to the terms of the debenture, see Note 3.A.2.(h) to the annual financial statements and note 3.A.3 to the financial statements.
 - (e) The sale of additional shares in Clal Holdings Insurance Enterprises subject to the restrictions pursuant to the provisions of the trust deed for Series O, insofar as they may apply. See Note 8.B.4 to the annual financial statements for details.

1.4 Select Data from the Financial Statements (Continued)

- 1.4.4 The Company's financing sources (Continued)
 - 1.4.4.4 <u>Projected statement of cash flows of the Company and its wholly-owned headquarter companies (excluding IDB Tourism)</u> (Continued)
 - (3) (Continued)

Furthermore, it should be mentioned that adverse changes that occurred as from the first quarter of 2020, primarily as a result of the outbreak of the Corona virus, including the impact thereof on Israir's business, the fall in the prices of the Company's securities and those of its investee companies, and in particular the increase in the yield on the Company's debentures and the sharp fall in the prices of the shares in Clal Holdings Insurance Enterprises, DIC and its investee companies, make it difficult at the present time, and so long as the impact of those changes continues, it will be difficult to implement some of the said alternatives, which are being examined by the Company and/or to realize them at the timings that are required for the settlement of the expected liabilities.

- (4) The Company's forecasted cash flow report does not include possible implications of the early repayment of a loan taken up by IDBG, as stated in Note 3.D.3 to the annual financial statements.
- (5) See Note 5.C and 5.D to the financial statements for details regarding the balance of debt to DIC in respect of a costs, services and usage allocation agreement. See Note 11.H to the financial statements for details regarding payments in an amount of up to 3.4 million Dollars in 2020 in respect of officers' liability insurance.
- (6) The forecast statement of cash flows does not include the possible implications in respect of the trustee's notification to the holders of the debentures (Series N) on the calling of a meeting to be held on September 18, 2020, on the agenda of which will be calling for the immediate repayment of the balance of the Company's unsettled debt vis-à-vis the holders of the debentures (Series N).
- (7) The forecast statement of cash flows has been prepared in accordance with the Company's agreed repayment schedules as of the reporting date, including the amounts of interest, which have been calculated in accordance with the interest rates as of the time of the publication of the report. It should be mentioned that various grounds are included in the Company's financing agreements for making the financing repayable immediately, and that some of the Company's creditors have contractual agreements, pursuant to which they have the possibility of making thee debt repayable immediately if another creditor makes its debt repayable immediately and in some of the cases if a ground arises for another creditor to have its debt made repayable immediately. See Note 8.B. to the annual financial statements for details.
- (8) The following are details of repayments of loans and debentures (based on the Company's current settlement agreements) including interest differentials and linkage based on the index at the time of the publication of the report:

 - 1.4.4.4 <u>Projected statement of cash flows of the Company and its wholly-owned headquarter companies (excluding IDB Tourism)</u> (Continued)
 - (9) For details regarding swap transactions on shares in Clal Holdings Insurance Enterprises, which was closed in July 2020, after the date of the statement of financial position, see Notes 3.B.3 and 3.B.4 to the financial statements.

The data that are included in the projected statements of cash flows, including the other sourced that are required for the period covered by the cash flows forecasts, constitute an estimate of the sources that are required and the underlying estimates and assessments include forward looking information, as defined in the Securities Law, which is based on the Company's estimates regarding:

The probability of the realization of relevant business scenarios from which the Company is projected to receive money, the timetables for the realization of those scenarios and the chances of receiving the approvals that are required and the agreements of the Company's financing bodies; the results of operations; possible alternatives to the obtaining of sources to repay its liabilities when they fall die for payment; the amounts and timings of the repayment of the Company's debentures. These estimates may not be realized, in whole or in part, or they may be realized in a manner that is materially different from what is expected.

The main factors that may impact this are: changes in business processes from which the Company's resources are expected and primarily the injection of equity into the Company within the framework of a debt arrangement in the Company, if and insofar as it may be executed; the impact of the outline for an enforced sale the price at which the shares in Clal Holdings Insurance Enterprises will be realized and the impairment of the maximization of the consideration that will be received for the sale of shares in Clal Holdings Insurance Enterprises; changes in or the non-completion of business plans that are expected to provide the Company with resources, including the sale of Company's holding in IDB Tourism; a worsening of the state of IDB Tourism's business or its financial position;

A depression or deterioration in the capital market and the economy, which will lead to a significant decrease in the value of the Company's holdings; dependence on the yields of the Company's debentures; dependence on the prices of the shares in DIC, which are charged in support of the Company and the holders of its debentures, a deterioration in the business or financial situation of any of DIC's investee companies; dependence on the share price of Clal Holdings Insurance Enterprises; demands by financing bodies for significant changes in the repayment times of existing credit and the taking of steps by the Company's creditors against it; the potential damage from the Corona virus to the market value of the shares in Clal Holdings Insurance Enterprises and the shares in DIC and its investee companies, to Israir's operations and accordingly to the value of IDB Tourism and the timing of its sale, to the global economy and growth and to the impairment of the availability of manpower and a shortage in equipment is dependent on the speed and the ability to constrain its spread across the globe; and the realization of any of the Company's risk factors (which have been described in Section 22 of Part A of the periodic report).

1.4.4.5 The outbreak of the Corona virus and the continuation of its negative impact on the economic situation, as stated in Note 1.B to the financial statements, could have a negative impact on the Company's liquidity, the state of its business and the Company's ability to realize its assets for an optimal consideration, its credit rating, its ability to raise financing, as well as the terms of its financing.

1.4 Select Data from the Financial Statements (Continued)

1.4.5 Retained earnings and negative balances of distributable profits 18

The balance of distributable earnings (as this term is defined in section 302 of the Companies Law), of the Company and of significant investee companies held directly by the Company and of DIC, whose shares are charged in support of the Company and its debenture holders, as of June 30, is as follows:

Ralance of distributable

	earnings (negative balances)
Company	NIS millions
IDB Development Corporation Ltd. 19	(1,211)

See Note 4H to the financial statements for details regarding the proposal dated June 2, 2020, which the Company and the trustees for its debentures received from Dolphin IL, which was updated on June 21, 2020 and on June 28, 2020, for the strengthening of the Company's capital structure, by way of an arrangement between Dolphin IL, the Company and the holders of its debentures.

For information relating to the restrictions on the distribution of dividends, see section 5 of part A of the periodic report (Description of the Corporation's business

The balance of distributable earnings is calculated on the basis of net income (loss) attributable to shareholders in the eight quarters preceding June 30, 2020, in accordance with the provisions of Section 302 of Companies Law. The accumulated balance of retained earnings is lower.

In accordance with latest financial statements that have been published by Clal Holdings Insurance Enterprises, for the first quarter of 2020. For details of limitations on the distribution of dividends by insurance companies, see Sections 11.5.3.2 and 11.5.3.3 of Part A of the Periodic Report (Description of the Corporation's Business).

1.4 Select Data from the Financial Statements (Continued)

1.4.9 Sensitivity tests for financial instruments

See Appendix A to the Board of Directors' Report for details regarding sensitivity tests for sensitive financial instruments included in the consolidated financial statements as of June 30, 2020, based on changes in market factors.

See section 1.4.8 above for details regarding the possible effect of changes in the Consumer Prices Index on the Company's operating results.

1.5 Changes in capital and quality of profit (loss)

See section 1.1 above for details regarding factors which affect net income (loss), and regarding the Company's comprehensive income (loss).

The Company's total comprehensive in the second quarter of 2020 (including non-controlling interests) amounted to NIS 93 million, as compared with comprehensive income (including non-controlling interests) of NIS 27 million in the corresponding quarter in the previous year. The aforementioned difference is primarily due to the following factors:

- A. The income in the second quarter of 2020 (including non-controlling interests) amounted to NIS 94 million, as compared with income of NIS 76 million in the corresponding quarter last year.
- B. In the second quarter of 2020, the Company recorded other comprehensive income in an amount of NIS 43 million, as a result of the updating of to the fair value of the convertible subordinated loans from the controlling interest, which is attributed to a change in the Company's credit risk. In the second quarter of 2020, no change was recorded in the value of the subordinated loans, which is attributed to a change in the Company's credit risk.
- C. In the second quarter of 2020, other comprehensive income (including non-controlling interests), net of tax, was recorded in respect of a change in the fair value of cash flow hedging in an amount of NIS 4 million, as compared with comprehensive loss net of tax in an amount of NIS 1 million in the corresponding quarter in the previous year.

The comprehensive income attributed to the shareholders in the Company amounted to NIS 94 million in the second quarter of 2020, as compared with comprehensive income of NIS 27 million in the corresponding quarter in the previous year.

1.8 Contribution to the business results of the Company and of investee companies, by operating segment

1.8.1 IDB Tourism segment

The Company's share in the results of the IDB Tourism segment in the first half and in the second quarter of 2020 amounted to a loss of NIS 4 million and a loss of NIS 1 million, as compared with a loss of NIS 12 million and a loss of NIS 9 million in the first half and in the second quarter of 2019.

It should be mentioned that the Company's share of IDB Tourism's results does not reflect the recognition of the results of Israir (a company that is wholly owned by IDB Tourism), since in accordance to international accounting principles, pursuant to which an asset that is held for sale is presented at the lower of the carrying value in the accounting records and the fair value less selling costs.

Summary of the business results of the IDB Tourism segment:

	Firs		: :	Seco			
		ths of	_ Increase	quart		Increase	
	2020 NIS m	2019	(decrease)	2020 NJS	2019	(decrease)	Explanation
D	 			NIS mi			TDI 1
Revenues	220	384	(42.8%)	42	212	(80.2%)	The decrease in revenues in the first half and in the second quarter of 2020 by comparison with the comparative periods in the previous year derives primarily from the impact of the outbreak of the Coronavirus, which is conditional in light of the actions that Israir has taken in order to cope with the crisis* and also from a decrease in incountry activity as a result of the closure of Sde Dov airport on July 1, 2019. Such decrease was offset partially by the consolidation of a company that is engaged in in-country tourism, since July 1, 2019 ("The consolidation of additional activity").
Cost of revenues	237	360	(34.2%)	52	194	(73.0%)	The decrease in the cost of revenues in first half and in the second quarter of 2020 by comparison with the comparative periods in the previous year derives from a decrease in revenues, as aforesaid.
Gross profit (loss)	(17)	24		(10)	18		
Gross profit (loss) as % total revenues	(7.9%)	6.2%		(24.8%)	8.6%		
Operating expenses	(46)	(45)	2.9%	(15)	(24)	(35.4%)	The increase in expenses in the first half of 2020 by comparison with the comparative periods in the previous year derives primarily from the consolidation of additional activity, as stated above, but this was offset for the most part as a result of adjustments that Israir has made in light of the outbreak of the Coronavirus*. The decrease first half and in the second quarter of 2020 by comparison with the comparative periods in the previous year derives from adjustments that Israir has made in light of the outbreak of the Corona virus*.

^{*} See Note 3.C.1 to the financial statements for details regarding the impacts of the outbreak of the Coronavirus on Israir's operations and regarding the actions that Israir has taken to cope with the crisis.

In the tables presented above, the rate of change in percentage terms of data relating to the comparative period in the previous year is calculated on the basis of exact data which is not rounded to the closest million.

1.8.2 Clal Holdings Insurance Enterprises Segment

The Company's share in the results of the Clal Holdings Insurance Enterprises segment in the second quarter of 2020 amounted to a loss of NIS 5 million, as compared with income of NIS 187 million in the corresponding quarter in the previous year. Following the transfer of the means of control in Clal Holdings Insurance Enterprises, which are held by the Company, to a trustee in August 2013, the results of Clal Holdings Insurance Enterprises, from the aforementioned date, are presented in accordance with the changes in the market value of the Company's holdings of the shares in Clal Holdings Insurance Enterprises, including by means of a swap transaction that has been executed on shares in Clal Holdings Insurance Enterprises.

See Note 3.B. to the financial statements for details regarding the market value of the shares in Clal Holdings Insurance Enterprises, which are owned by the Company, as of June 30, 2020, and shortly before the time of the approval of this report and also regarding the swap transactions that have been executed and regarding the closure of all of the swap transactions in the reporting period and in July 2020 after the date of the statement of financial position.

For details regarding the main changes in the Clal Holdings Insurance Enterprises segment during the reporting period, see Note 3.B. to the financial statements.

- 1. The Board of Directors' explanations regarding the state of the Company's affairs (Continued)
- 1.8 <u>Contribution to the business results of the Company and of investee companies, by operating segment</u> (Continued)

1.8.3 IDBG Segment

The Company's share in the results of the IDBG segment in the first half and in the second quarter of 2020 amounted to a loss of NIS 6 million and a loss of NIS 2 million, respectively, as compared with loss of NIS 22 million and a loss of NIS 4 million in the first half and in the second quarter of 2019.

Summary of the business results of the IDBG segment:

	First six months of		Increase	Increase			
	2020	2019	(Decrease)	2020	2019	(Decrease)	Explanation
	NIS m	illions	%	NIS n	NIS millions		
Rental revenues	22	22		11	12		
EBITDA	10	9	7.9%	7	6	11.5%	
Impairment in the fair value of investment property and assets	(17)	(6)		-	-		The changes in the fair value in the first half of the years 2020 and 2012 derived from the updating of the valuation of the Tivoli project and inventories of land in Las Vegas. See Note 3.D.3 to the financial statements for details and Appendix C below.
Financing expenses, net to external parties	(13)	(19)	(30.5%)	(11)	(9)	24.4%	The decrease in the first half of 2020, by comparison with the comparative period in the previous year and the increase in the second quarter by comparison with the comparative quarter in the previous year derived primarily from the impact of the change in the Dollar/NIS exchange rate on Shekel denoted loans.
Financing expenses for credit from Property & Building (*)	(2)	(13)		-	(6)		The decrease in the first half of 2020, by comparison with the comparative period in the previous year derived from the conversion of the balance of the credit into share capital in February 2020. Loss for the period (**)	(22)	(29)	(25.6%)	(4)	(8)	(48.8%)	

^(*) Derives from credit that was received from Property & Building in 2016 (see Note 3.D.5 to the annual financial statements for details).

See Note 3.D to the financial statements for details regarding the main changes in the holdings in the IDBG segment in the reporting period

^(**) Loss before the impacts of financing in respect of shareholders' loans that were provided by the Company and Property & Building pro-rata.

1.9 Administrative, financing and other expenses, net

	First six m	onths of	Second qu	arter of			
	2020	2019	2020	2019			
	NIS mi	llions	NIS millions		Explanation		
Administration and other expenses, net:	(10)	(11)	(5)	(4)	The increase in administrative and general in the second quarter of 2020, by comparison with the comparative quarter in the previous year derived primarily from legal expenses that were recorded in the second quarter of 2020, primarily in respect of expenses in connection the Company's financial position, including expenses of the trustees for the Company's debentures. The increase, as aforesaid, in the first half of 2020 was offset by a decrease in salary and other expenses.		
Financing expenses, net:	(74)	(112)	(34)	(67)	The decrease in financing expenses in the second quarter of 2020 and in the first half of 2020, by comparison with the comparative periods in the previous year derived primarily from decreases of NIS 34 million and of NIS 49 million, comparatively in the financing expenses on the Company's debentures as a result of a decrease in the volume of the debt to the debenture holders as well as from a decrease in the known index. The abovementioned decrease in the first half of 2020 by comparison with the comparative period in the previous year was offset partially by the recording of a loss in an amount of NIS 9 million in the first quarter of 2020 in respect of a decrease in the value of the investment in Colu.		
Total	(84)	(123)	(39)	(71)			

^{*} In the second quarter and in the first half of 2020 the known index fell by 0.2% and by 0.7% respectively, by comparison with an increase of 1.5% and 1.2% in the comparative periods in the previous years.

See Note 5C to the financial statements for details regarding updates to the terms of the Company's commitment with DIC, under a costs allocation agreement (the services agreement and the agreement covering the allocation of usage and office expenses), with effect from July 1, 2020 to June 30, 2023.

2. Exposure to and Management of Market Risks

2.1 During the reporting period, no material changes occurred in the Company's exposure to and management of market risks, compared to the Company's reports on this subject in the Company's Board of Directors' Report for 2019. Following the resignation of Mr. Eran Saar from his position as the Company's Chief Executive Officer in April 2020, Mr. Aaron Kaufman was appointed to be responsible for the management of the Company's market risks.

The Company does not manage the risks of its investee companies.

2.2 <u>Investee companies</u>

During the reporting period, no material changes occurred in the exposure area of the Company's material investee companies to market risks and the management thereof, in respect of the Company's reports on the subject in the Company's Board of Directors' Report for 2019.

3. <u>Disclosure Requirements in Connection with the Corporation's Financial Reporting</u>

3.1 <u>Termination of the employment of the Company's Chief Executive Officer and the appointment of a new Chief Executive Officer</u>

In April 2020 Mr. Eran Saar ended his period of office as the Company's Chief Executive Officer and Mr. Aaron Kaufman was appointed to the position of the Company's Chief Executive Officer

3.2 Major events subsequent to the date of the statement of financial position

For details regarding major events subsequent to the date of the statement of financial position, see Note 11 to the financial statements.

3.3 Referral by the Company's auditors drawing attention

The auditors' review report to the Company's shareholders includes a reference drawing attention to what is stated in Note 1.B. to the financial statements regarding the Company's financial position, its cash flows and its ability to service its liabilities, including the equity deficit that is attributed to the Company's shareholders, the Company's negative net assets value (based on the current market prices of its marketable holdings with the addition of the carrying value in the accounting records of other assets and less financial liabilities), the cash that is required by the Company for the settlement of its liabilities, which is also in the short-term, the reliance of the realization of assets, the timing of the realization of which is not under the Company's control as well as the cash requirements, which are needed by the Company in order to settle its liabilities at the required time, which are dependent, inter alia, on factors that are not under its control and primarily on the value of the debenture from Dolphin IL, and on the cash flows that will be generated therefrom until the end of the Company's liabilities towards its creditors, and in addition, to the notification by the trustee for the holders of the Company's debentures (Series N) on September 18, 2020, on the agenda of which will be calling for the immediate repayment of the balance of the Company's unsettled debt towards the holders of the debentures (Series N).

These factors, together with additional factors, which are detailed in Note 1.B to the financial statements, raise significant doubts regarding the Company's continued existence as a going concern.

Appendix A - Qualitative Reports Regarding the Exposure to and Management of Market Risks

Sensitivity tests in respect of market factors

The following are tables of sensitivity tests regarding the market value of sensitive financial instruments held by the Group.

The following tables should be read in light of the following remarks:

- 1. The specified instruments are not necessarily presented in the financial statements at fair value. The above pertains primarily to the Company's debentures.
- 2. Changes in exchange rates have an effect on both reported results and on the Company's capital as a result of the charging of translation differences, due to the translation of the financial statements of investee companies which are prepared in foreign currency.
- 3. As of June 30, 2020, the Company's assets include an investment in the debenture from Dolphin IL in an amount of NIS 556 million, which is measured at fair value (level 3) through profit and loss, and is presented in the Company's financial statements under non-current assets. See Note 7 to the financial statements for details regarding sensitivity analyses in respect of the debenture's fair value.

<u>Appendix B - Financial Position and Financing Sources</u> (Continued) <u>Information regarding the Company's debentures</u> (Continued)

Summary of debenture data (1), NIS millions, as of June 30, 2020 (Continued)

Remarks:

- (1) As of June 30, 2020, and in the first half of 2020, the Company was and is in compliance with all of the terms and undertakings pursuant to the trust deeds for the debentures, and no ground exist which would give rise to grounds for requiring the immediate repayment of the liability notes. See Note 4.B to the annual financing statement for details regarding financial restrictions and covenants and grounds for demanding the immediate repayment of the debentures. [The Company is in routine contact with the trustees for the series of debentures and passes them relevant information for the purpose of safeguarding the debenture holders' affairs. See Note 4.J to the financial statements for details regarding decisions by meetings of the holders of the debentures of the Company's series of debentures, for the calling of meetings of the holders of the debentures in connection with the passing of resolutions for calling for the immediate repayment of the unsettled balance of the debt for those series.
- (2) A material series is a series which comprises 5% or more of the Company's total liabilities.
- (3) Annual payments, unless otherwise stated.
- (4) The Company has the right of early redemption in respect of the debentures.
- (5) As of June 30, 2020, and shortly before the publication of this report, 99,258,708 shares in DIC and 58,066,344 par value of debentures (Series I) issued by the Company are charged under a first ranking lien in support of the debenture holders (Series N), (in addition to which, 17,158,242 shares in DIC and 10,037,571 par value of debentures (Series I) issued by the Company, which are held by Dolphin IL are charged, through lower-ranking charges, in support of the holders of the debentures (Series I and N). See Note 3.A. to the annual financial statements and section 1.4.4.3.3 above for details regarding the information that is required in respect of DIC, see also DIC's current reports on the Magna reporting system.
- (6) See Notes 3.A.5 and 16.D(1) to the annual financial statements for details regarding the purchase of debentures (Series I) and debentures (Series N), which have been purchased by DIC (a corporation that is controlled by the controlling interest in the Company), and regarding the distribution of most of the purchases of the debenture (Series I) as a payment in kind dividend.
- (7) On July 9, 2019, each of the meetings of the debenture holders (Series I and Series N) resolved to appoint a representation for each series, and to appoint a legal advisor and economic consultant for each representation. See Notes 8.E.1 and 8.E.2 to the financial statements.
 - See Section 10 of Appendix B to the Report of the Company's Board of Directors for the year 2019 for details regarding the resolutions which were passed in the meetings of the debenture holders (Series I, N and O) on various issues during the course of the year 2019, including the appointment of representatives for each of the series.
 - See the Company's immediate reports for details regarding resolutions which were passed in the meetings of the debenture holders (Series I and Series N) in the reporting period and up to a time shortly before the publication of the financial statements for the second quarter of 2020 and the issues that are detailed below:
 - A resolution by a meeting of the holders of the debentures (Series I) not to approve the payment of interest that was set for June 18, 2020 to June 30, 2020 (see also comment 11 below) the immediate report of June 7, 2020 (Document number: 2020-0110-058140). Accordingly the Ex-day for the payment of interest has been set as June 8, 2020.
 - On June 7, 2020, general meetings of the holders of the Company's debentures (all of the series and each series separately), where a resolution was on the agenda not to convene a general meeting on the agenda of which would be the making of the debentures repayable immediately (all of the series, in a separate resolution, as aforesaid).
 - The meetings of the debenture holders (Series I and Series O), each decided to pass the said resolution (see the immediate reports of June 8, 2020, Document numbers 2020-10-058953 and 2020-10-058893).
 - The meetings of the debenture holders (Series N), decided not to pass the said resolution (see the immediate report of June 8, 2020, Document number 2020-10-058842).
 - On June 11, 2020, a general meeting of the debenture holders (Series O) decided to appoint Attorneys Peretz-Figal as the representatives of the trustee and of the debenture holders (Series O). See the immediate report of June 11, 2020, Document number 2020-10-060789).
 - On June 11, 2020, a general meeting of the debenture holders (Series O) decided to Doron Tourjman CPA as a members of the representatives of the debenture holders (Series O). See the immediate report of June 11, 2020, Document number 2020-10-062889).
 - On June 21, 2020, the trustee made an announcement to debenture holders (Series N) of the calling of a meeting, to be held on July 5, 2020, on the agenda of which will be the calling for the immediate repayment of the unsettled balance of the Company's debt vis-à-vis the debenture holders (Series N).
 - See the Company's immediate report of June 21, 2020, Document number 2020-10-064512. In the said meeting, it was decided not to call for the immediate repayment of the debt and to convene an additional meeting on the subject on August 5, 2020. See the Company's immediate report of July 6, 2020, Document Number 2020-10-064162.
 - On August 5, 2020, the trustee notified the holders of the debentures (Series N) of the calling of a meeting, to be held on August 18, 2020, on the agenda of which there was to be calling for the immediate repayment of the balance of the Company's unsettled debt to the holders of the debentures (Series N). See the immediate report of August 5, 2020, Document number 2020-10-084501. On August 13, 2020, the general meeting of the holders of the debentures (Series N) decided to instruct the trustee to defer the meetings of the debenture holders, the agenda of which there was to be calling for the immediate repayment of the balance of the Company's unsettled debt to the holders of the debentures (Series N), which had been called for August 18, 2020, such that it will be convened on September 18, 2020. See the immediate report of August 13, 2020, Document number 2020-10-078892.

Appendix B - Financial Position and Financing Sources (Continued)

Information regarding the Company's debentures (Continued)

Summary of debenture data, NIS millions, as of June 30, 2020 (Continued)

Remarks (Continued))

- (7) (Continued)
 - On August 5, 2020, the trustee notified the holders of the debentures (Series O) of the calling of a meeting, to be held on August 18, 2020, on the agenda of which there was to be calling for the immediate repayment of the balance of the Company's unsettled debt to the holders of the debentures (Series O). See the immediate report of August 5, 2020, Document number 2020-10-084474. On August 18, 2020, the general meeting of the holders of the debentures (Series N) decided to instruct the trustee not to convene a meeting of the debenture holders for the making of a decision regarding calling for the immediate repayment of the balance of the Company's unsettled debt to the holders of the debentures (Series O) in respect of the existing grounds for immediate repayment, as they claim, as of the time of the calling of the meeting and/or grounds that may arise after the time of the calling of the meeting, and this until December 1, 2020. See the immediate report of August 18, 2020, Document number 2020-10-081217.
 - On July 6, 2020, a general meeting of the holders of the debentures (Series I) decided to instruct the trustee not to accept Dolphin IL's proposal of June 21, 2020. See the Company's immediate report of July 7, 2020, Document Number 2020-10-064537 for details. See Note 4H to the financial statements for details regarding the vote. See the Company's immediate report of August 17, 2020, Document number 2020-10-080128 for details regarding letters from the representative of the holders of the debentures (Series O) inter alia, to the Company and to the trustees for the debentures (Series N), in which their main claims for the rejection of Dolphin IL's proposal are set out as well as their objection to the appointment of an expert to examine a significant debt arrangement pursuant to the provisions of the Insolvency and Economic Rehabilitation Law, 5778 -2018.
 - On July 7, 2020, a general meeting of the shareholders (Series N) decided to conduct negotiations for a set period of one month in connection with the controlling interest's proposal of June 4, 2020, and the updates thereto of June 21 and 29, 2020 (see the immediate report of July 9, 2020, Document number 2020-10-073467). On July 8, 2020 a general meeting of the shareholders (Series o) made a similar decision (see the immediate report of July 9, 2020, Document number 2020-01-073482).
- (8) See also Clal Holdings Insurance Enterprises' routine reports on the Magna reporting system for details regarding the information that is required in respect of Clal Holdings Insurance Enterprises.
- (9) See Note 4.D to the financial statements and Section 1.4.4.3.1 above for details regarding non-compliance as of March 31, 2020 with financial covenants that the Company is committed to opposite the debenture holders (Series N) and regarding the increasing of the interest rate following the non-compliance with the covenants, as aforesaid. As of June 30, 2020, the Company was in compliance with one of the financial covenants that it exceeded on March 31, 2020 and accordingly as from the time of the publication of the financial statements, the interest rate on the debentures (Series N) for the second quarter of 2020 was reduced to a rate of 5.25%.
- (10) On May 19, 2020, the Company's Board of Directors approved a letter of commitment opposite the generality of the Company's existing debenture holders. See Note 4.F to the financial statements for details. The full version of the letter of commitment was published in immediate report 2020-01-043978. On July 3, 2020, the Company received a letter of commitment from the controlling interest towards the generality of the Company's existing debenture holders. See Note 4.I to the financial statements for details. The full letter of commitment was published in an immediate report, Document number 2020-01-070935.
- (11) See the immediate report of June 2, 2020, Document number 2020-10-060576 for details regarding claims that the debenture holders (Series I) may have regarding reimbursements of expenses for the trustee and his agents, which they allege that the Company must bear.
- (12) See Note 4.H to the financial statements for details regarding a draft offer dated June 2, 2020, as updated on June 21, 2020 and on June 28, 2020which the Company and the trustees for its debentures received from Dolphin IL to strengthen the Company's capital structure, by way of an arrangement between Dolphin IL, the Company and its debenture holders.
 - On June 8, 2020, a meeting of the debenture holders (Series I) resolved to instruct the Trustee for the debentures (Series I) not to conduct negotiations on the basis of this offer. See the Company's immediate report of June 9, 2020, Document number 2020-10-059214. On June 21, 2020, an updated proposal was received (see Note 4.E to the financial statements, including updated to the proposal on June 28, 2020).
- (13) On June 29, 2020, the Company announced that pursuant to a decision by its Board of Directors on June 28, 2020, the interest payments on the debentures (Series O), the payments of interest on the debentures (Series I), whose payment had been deferred, as aforesaid, from June 18, 2020 to June 30, 2020; as well as the payments of the interest on the debentures (Series N and O), which pursuant to the trust deeds are supposed to be paid on June 30, 2020, will be deferred and paid on July 7, 2020, Document number 2020-10-067923.
 - Accordingly, the amount of the interest, in an amount of NIS 22.3 million, the payment time of which pursuant to the repayment schedule of the debentures (Series I) was June 18, 2020; and amounts of interest in an amount of NIS 11 million (Series N) and NIS 2.8 million (Series O), the payment time of which pursuant to the repayment schedule of the debentures was June 30, 2020, were actually paid on July 7, 2020. See Note 4G to the financial statements for details. Since the ex-day for the payment of the said interest was before June 30, 2020, the stock exchange value does not include the amounts of the interest, however the balance of the interest was accrued and the balance in the accounting records as of June 30, 2020 includes these interest payments.

Pursuant to the announcement by the trustee for the Company's debentures (Series I) on July 1, 2020, the Company offset an amount of NIS 750 thousand ("The amount of the offset") out of the total payment in respect of the settlement of interest for the holders of the debentures (Series I), which was paid at the time of the payment of the interest. The amount of the offset was transferred to the trustee. It is clarified that the amount of the offset is to be calculated for all intents and purposes as money that has been paid by the Company on account of the payment of the interest to the holders of the Company's debentures (Series I) at the time of the payment of the interest and the Company will be viewed as having fulfilled its commitment vis-à-vis the holders of the Company's debentures (Series I) in respect of the said payment of the interest. See the immediate report of July 5, 2020, Document Number 2020-01-071430 for details.

Appendix B - Financial Position and Financing Sources (Continued)

Details regarding debenture ratings

	Name	Rating as	Rating as	Rating set at the time of	Date of the issuance of the rating	ssuance of during the period between the original issuance and the current rating as of 20.08.20						
Series	rating company	of 30.06.20	of 20.08.20	the issuance of the series	as of 20.08.20*	Date	Rating

^{*} On June 27, 2019, Ma'alot announced, due to the increased risk of insolvency, that it was reducing the Company's rating to CCC, negative rating outlook. Ma'alot reduced the rating of the debentures (Series I), which are unsecured, to a rating of CC. The updated rating report was published by the Company in an immediate report on June 27, 2019 (reference number 2019-01-064822).

On March 17, 2020, Ma'alot announced that as a result of its assessment that there is almost absolute certainty that the Company will reach insolvency in the immediate term, it was lowering the Company's rating to a rating of CC with a negative rating outlook. Ma'alot also lowered the rating for the debentures (Series I), which are unsecured, to C. The updated rating report was published by the Company in an immediate report on March 17, 2020 (Document number 2020-01-026025).

On July 1, 2020, after the date of the statement of financial position, Ma'alot announced that it was approving the said rating of March17, 2020 (including the negative forecast), and this in light of its assessment that there is a very high probability of insolvency or a debt arrangement.

Appendix C

Details Regarding Economic Papers and Valuations Pursuant to Regulation 49(A) of the Securities Regulations (Periodic and Immediate Reports), 5730-1970 ["Regulation 49(A) of the Reporting Regulations"]

Details regarding an economic paper as of June 30, 2020, regarding the fair value of the debenture which was received by the Company within the framework of the transaction for the sale of its holdings in DIC to a company controlled by the controlling interest ("The Purchaser") [Regulation 49(A) the Reporting Regulations]:

The abovementioned economic paper is attached to the Company's financial statements. See also Note 3.A.2 to the annual financial statements and Notes 3.A and 7 to the financial statements.

The following are details regarding the valuation:

- A. Identity of the subject of the valuation the fair value of the debenture, which was received by the Company within the framework of the transaction for the sale of its holdings in DIC to the purchaser as of June 30, 2020.
- B. Timing of the valuation June 30, 2020;
- C. Value of the subject of the valuation in the Company's accounting records at a time shortly before the valuation the estimated fair value of the debenture as of December 31, 2019 and March 31, 2020 was estimated at NIS 975 million and NIS 414 million, respectively.
- D. Value of the subject of the valuation the fair value of the debenture as of June 30, 2020, has been estimated at NIS 556 million.
- E. Identity and characteristics of the appraiser Fair Value Ltd. is a private company specialized in the performance of complex professional valuations, economic consulting projects and appraisal of equipment and machines, including projects for accounting purposes. There is no dependence between the appraiser and the party that ordered the paper, the Company. The contractual agreement with the appraiser includes an undertaking by Discount Investment to indemnify the appraiser in respect of any amount which the appraiser may incur in a ruling given in support of a third party, as well as any reasonable direct legal expenses which it may incur in connection with the valuation, above an amount equal to 3 times the consideration which is paid to the appraiser as part of the engagement with it, except in the event that the appraiser has acted with gross negligence or malice.
- F. Valuation model used by the appraiser -

The value of the convertible subordinated loan was determined using a correlative Monte Carlo model. The Monte Carlo model is an algorithmic model which is used to solve calculation problems by running stochastic parameters through a large number of global situations, and the performance of calculations on the various scenarios which were obtained.

For the purpose of calculating the various scenarios, simulations were prepared regarding the future value of the holding in DIC and the future value of the Company's holdings, in order to assess the ability to actually repay the debenture and the impact of these values on insolvency situations, both of the Company and of the purchaser.

Use was also made of the Merton model, in order to estimate the future value of the debenture at different dates and in different scenarios, in order to assess natural situations of early repayment, both by the purchaser and by the Company.

- G. Assumptions used to prepare the paper:
 - 1. The threshold ratio and/or insolvency trigger were determined based on a VTL ratio of 90%.
 - 2. Fire sale discount rate of 10% for Dolphin IL's assets.
 - 3. Discount rate in respect of the sale of a block for realizations which are not part of an insolvency event 10%.

Details regarding an economic paper on the subject of the fair value of subordinated loans convertible to shares, as of June 30, 2020 [Regulation 49(A) the Reporting Regulations]:

The abovementioned economic paper is attached to the Company's financial statements. See also Note 7.C. to the annual financial statements and Notes 6 and 7 to the financial statements.

The following are details regarding the valuation:

- A. Identity of the subject of the valuation the fair value of the convertible subordinated loans provided to the Company by the controlling interest as of June 30, 2020.
- B. Date of the valuation June 30, 2020;
- C. Value of the subject of the valuation in the Company's accounting records at a time shortly before the valuation the estimated fair value of the convertible subordinated loans as of December 31, 2019 and as of March 31, 2020 was estimated at NIS 25 million and at NIS 0 million, respectively.
- D. Value of the subject of the valuation the estimated fair value of the convertible subordinated loans as of June 30, 2020, was estimated at NIS 0 million.
- E. Identity and characteristics of the appraiser Fair Value Ltd. is a private company specialized in the performance of complex professional valuations, economic consulting projects and appraisal of equipment and machines, including projects for accounting purposes. There is no dependence between the appraiser and the party ordering the paper, the Company. The contractual agreement with the appraiser includes an undertaking by Discount Investment to indemnify the appraiser in respect of any amount which the appraiser may incur in a ruling given in support of a third party, as well as any reasonable direct legal expenses which it may incur in connection with the valuation, above an amount equal to 3 times the consideration which is paid to the appraiser as part of the engagement with it, save in the event that the appraiser has acted with gross negligence or malice.
- F. Valuation model used by the appraiser -

The value of the convertible subordinated loans was determined using the Monte Carlo model, which is an algorithmic model for solving calculation problems by running stochastic parameters through a large number of global scenarios, and performing calculations on the various scenarios which are obtained. The indication regarding the calculation of the underlying asset was estimated based on market indications in respect of the Company's assets and liabilities, less the effect of fire sale factors and the probability of insolvency, as calculated based on market data, and less a discount in respect of the non-marketability of a block, and based on qualitative indicators that were received from Company management.

The value of the subordinated loans has been calculated as the average of the value of the convertible shares based on Monte Carlo scenarios, as aforesaid, multiplied by the probability that the Company will not reach insolvency, discounted using a risk-free interest rate.

- G. Assumptions used to prepare the paper:
 - 1. Annual default probability rate approximately 99%.
 - 2. Fire sale factors in case of insolvency 10% 25%.
 - 3. Non-marketability factors -7% 10%.

Details on an economic paper as of March 31, 2020, which the Company received regarding the economic valuation of a commercial and office project in Las Vegas, USA (the "Tivoli project") which is owned by Great Wash Park LLC ("GW"), an investee company of IDBG, which is held (25.82%) by the Company: [Regulation 49(A) of the Reporting Regulations].

The abovementioned economic paper is attached to the Company's financial statements by way of reference to the financial statements of Property & Building Corporation Ltd. See also Note 3.D.3 to the financial statements for details.

The following are the main details of the economic paper:

- A. Identity of the subject under valuation the Tivoli project;
- B. Date of the valuation March 31, 2020;
- C. Value of the subject of the valuation in the accounting records of Great Wash Park LLC ("GW") as of March 31, 2020 before the valuation was prepared \$ 237 million;
- D. Value of the subject of the valuation, as determined in the valuation as of March 31, 2020 \$233 million its share in the amortization in the amount of NIS 4 million. The amortization was included under the item for the Group's share in the loss of investee companies treated at equity, net.
- E. Identity and characteristics of the appraiser Cushman & Wakefield (for additional details, see Appendix C to the valuation). There is no dependence between the appraiser and the companies who ordered the valuations.
- F. Primary valuation model used by the appraiser –

 Revenue-generating property discounted cash flows (DCF);
 Real estate comparative approach;
- G. Assumptions used to prepare the valuation:

1.	NOI, per representative year (third year)	\$ 14.3 million
2.	Annual discount rates for the income-producing portion - Triad A and Triad	
	B:	
	- For NOI projected for the first 12 years and the expected proceeds from the realization of the asset at the end of the 12th year (Discount Rate)	8.0%
	- For NOI projected for the 13 th year, pursuant to which the expected proceeds from the realization of the asset at the end of the 12th year	
	(Discount Rate)was determined (Terminal Capitalization Rate)	6.5%
3.	Terminal value of total value, as estimated	56.3%

Details on an economic paper as of March 31, 2020, which the Company received regarding the economic valuation of a Israir Aviation and Tourism Ltd. ("Israir"), a company that is wholly owned by IDB Tourism Ltd., which is held (100%) by the Company: [Regulation 49(A) of the Reporting Regulations].

The following are the main details of the economic paper:

- A. Identity of the subject under valuation the value of Israir;
- B. Date of the valuation March 31, 2020;
- C. Value of the subject of the valuation in the Company's accounting records as of March 31, 2020 before the valuation was prepared NIS 125 million; value of the subject of the valuation in the Company's accounting records as of December 31, 2019 NIS 135 million*.
- D. Value of the subject of the valuation, as determined in the valuation as of March 31, 2020 in a range of between 31.3 million dollars to 58.8 million dollars (which includes an amount of 5 million dollars of debt due from the Company, as detailed in Note 3.C.3 to the financial statements). As a result of this, the Company has estimate its investment in Israir at an amount of 34.2 million dollars (NIS 122 million**). The updating of the value of the investment, in an amount of NIS 3 million, was recorded under losses from discontinued operations, after tax in the period in the first quarter of 2020.
- E. Identity and characteristics of the appraiser Prometheus Economic Consultancy). There is no dependence between the appraiser and the companies who ordered the valuations.
- F. Primary valuation model used by the appraiser discounted cash flows (DCF);
- G. Assumptions used to prepare the valuation:
 - 1. The discount rate 12.6%. The value range of the value, as mentioned in section D above derived from the uncertainty in the market, which is taken into account, inter alia, by means of a margin of +/- 10% in the discount rate. The reasonability of this margin is consistent with the fact that the middle of value range is close to the Company's shareholders' equity, which is based on the fair value, the upper end of the value range is similar to the result that is received from the adoption of all of the Company's assumptions, whereas the lower end of the value rage is similar in its value to the proposal that was received recently, when starting negotiations for the purchase of the Company, where the Company's assumption is that within the framework of the offer, as aforesaid, the offeror will take the repayment of a loan in an amount of 5 million Dollars, which the Company has taken up from IDB Tourism, as detailed in Note 3C3 to the Company's financial statements upon itself.

It should be mentioned that in the calculation of the discount rate the appraiser used a price of debt of approximately 2.6% in accordance with the loan that Israir with an addition of 1% (3.6% in total) in order to reflect the collateral that were given in the said loan, which was based on the exercise of professional judgment. As an additional alternative, interest has been taken into account in respect of the price of the debt of approximately 5.7%. The use of this interest rate reduces the value range by approximately NIS 4.5 million in relation to what is stated in section D above.

The risk premium for size that was taken into account in the appraisal is 4.99%. This premium is based on the premium for size in accordance with Duff and Phelps' data for the year 2020 for small companies, with adjustments that were made by the appraiser for the size of companies in Israel. As an additional alternative, the appraiser took a scenario in which the premium for size would be increased to a rate of 7.6%, which is appropriate for very small companies and based on the premium for size in accordance with Duff and Phelps' data for the year 2020 for small companies, with adjustments that were made by the appraiser for the size of companies in Israel and a linear adjustment in relation to the range of the size of companies in Israel, as aforesaid. The use of a premium for size of 7.6% leads to a reduction of the upper range for the range that was presented such that the upper range stands at 39 million Dollars. It should be mentioned that the use of a premium for size of 7.6%, as aforesaid, does not accord with the methodology of appraisers in Israel.

Details on an economic paper as of March 31, 2020, which the Company received regarding the economic valuation of a Israir Aviation and Tourism Ltd. ("Israir"), a company that is wholly owned by IDB Tourism Ltd., which is held (100%) by the Company: [Regulation 49(A) of the Reporting Regulations] (Cont)

- G. Assumptions used to prepare the valuation (Cont)
 - 2. The transition ownership of aircraft to a leasing structure it has been assumed that in 2023 the Company's fleet of aircraft will be sold for consideration of 10 million dollars. An amount of 5 million dollars will be invested for the purpose of the transition to a structure that operates on a basis of leased aircraft and as from 2024, Israir will transition to a full leasing model.
 - 3. The long-term growth rate -1.8%.
 - 4. Additional assumptions regarding the future cash flows
 - The cash flows take an increase in operating expenses as a result of leasing costs into account, which is offset partially by a decrease in operating expenses and capital investments as a result of the assumptions in respect of the full leasing of aircraft as stated in Section 2 above.
 - 5. It has been assumed that in the short and intermediate-term, Israir's results will continue to be affected by the Corona crisis and that they will grow afterwards, such that in 2022 the revenues will stand at approximately 93% of Israir's revenues in 2019 and in 2025 the revenues will return to their level in 2019.
 - 6. As stated in Note 3.C.2 to the financial statements, Israir's fair value in the Company's financial statements reflects the Company's management's assessment of the amount that the Company can receive in consideration for the sale of Israir in this challenging period.
 - * See Section 1.8.1 of the Board of Directors' report for details regarding the manner of the determination of the value as of December 31, 2019.
 - ** The net debt owed by IDB Tourism (Israir's parent company) in an amount of NIS 3 million has been deducted from this amount, as well as an amount of NIS 18 million in respect of the Company's debt to IDB Tourism, which has been eliminated within the framework of the consolidated financial statements.

Auditors' Review Report to the Shareholders of IDB Development Corporation Ltd.

Introduction

We have reviewed the attached financial information of IDB Development Corporation Ltd. and its consolidated companies (hereinafter: "The Group"), which includes the condensed consolidated statement of financial position as of June 30, 2020, as well as the condensed consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the periods of six months and of three months then ended. The Board of Directors and management are responsible for the preparation and presentation of this interim financial information for these periods in accordance with International Accounting Standard (IAS) 34, "Interim Financial Reporting", and are also responsible for compiling the financial information for these interim periods in accordance with Chapter IV of the Securities Regulations (Periodic and Immediate Reports), 5730-1970, insofar as these regulations apply to consolidated companies that are insurance companies. Our responsibility is to express a conclusion regarding the financial information for these interim periods, based on our review.

We have not reviewed the condensed interim financial information of investee companies treated at equity, the investment in which totaled approximately NIS 11 million as of June 30, 2020, and the Group's share in the losses of which amounted to approximately NIS 3 million and NIS 1 million for the periods of six months and of three months then ended, respectively. Nor have we reviewed the condensed financial information for the interim periods of a subsidiary which has been recorded in the financial statements as a discontinued operation, the total assets in respect of which amounted to NIS 668 million as of June 30, 2020, and the loss from discontinued operations after tax in respect thereof amounts to NIS 3 million and NIS 2 million for the periods of six months and of three months then ended, respectively. The interim condensed financial information of those companies has been reviewed by other auditors, whose review reports have been furnished to us, and our conclusion, insofar as it refers to the financial information in respect of those companies, is based on the review reports of the other auditors.

Scope of the Review

We conducted our review in accordance with Review Standard 2410 of the Institute of Certified Public Accountants in Israel, regarding "Review of Financial Information for Interim Periods Prepared by the Entity's Auditor." A review of interim financial information consists of inquiries, mainly with the people responsible for financial and accounting matters, and of the application of analytical and other review procedures. This review is significantly limited in scope compared to an audit prepared according to generally accepted Israeli auditing standards, and therefore does not allow us to achieve certainty that we are aware of all material issues that may have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, and on the review reports prepared by other auditors, we have not become aware of any information which would have caused us to believe that the aforementioned financial information has not been prepared, in all material respects, in accordance with IAS 34.

In addition to what is stated in the preceding paragraph, based on our review and on the review reports prepared by other auditors, we have not become aware of any information which would have caused us to believe that the abovementioned financial information is not compliant, in all material respects, with the disclosure provisions of Chapter IV of the Securities Law Regulations (Periodic and Immediate Reports), 5730-1970.

Without qualifying our conclusion, we draw attention to what is stated in Note 1.B. to the financial information regarding the Company's financial position, its cash flows and its ability to service its liabilities, including the equity deficit that is attributed to the Company's shareholders, the Company's negative net assets value (based on the current market prices of its marketable holdings with the addition of the carrying value in the accounting records of other assets and less financial liabilities), the cash that is required by the Company for the settlement of its liabilities, which is also in the short-term, in reliance of the realization of assets, the timing of the realization of which is not under the Company's control as well as the cash requirement, which are needed by the Company in order to settle its liabilities at the required time, which is dependent, inter alia, on factors that are not under its control and primarily on the value of the debenture from Dolphin IL, and on the cash flows that will be generated therefrom until the end of the Company's liabilities towards its creditors, as well as the notification by the trustee for the holders of the Company's debentures (Series N), on the calling of a meeting of the holders of the debentures (Series N) on September 18, 2020, on the agenda of which will be calling for the immediate repayment of the unsettled balance of the Company's debt to the holders of the debentures (Series N).

These factors, together with additional factors, which are detailed in Note 1.B to the financial information, raise significant doubts regarding the Company's continued existence as a going concern. The management's plan in connection with these matters are detailed in Note 1.B to the financial information. All of the adjustments to the values and classifications of assets and liabilities, which might be needed if the Company is unable to continue to operate as a going concern, have not been recorded in the financial information

Notes to the Condensed Consolidated Interim Financial Statements as of June 30, 2020

Unaudited

Note 1 - General

A. IDB Development Corporation Ltd. ("The Company") is a company registered in Israel and incorporated in Israel, and its official address is Toha Tower, 114 Yigal Alon Street, 27th Floor, Tel- Aviv. In recent years, the Company has worked to stabilize and improve its financial position and liquidity, and as part of the above, it has placed a particular emphasis on the evaluation of various financing alternatives, including the execution of recruitments of equity and debt (including the receipt of subordinated loans), the issuance of debentures, inter alia, for the purpose of refinancing debts and servicing its debts to its financial creditors, and to finance its operating activities; and the dedication of managerial efforts to private companies which are directly held by the Company, including the evaluation of various possibilities for optimizing and improving the performance of investee companies, inter alia, with the aim of maximizing their value.

On April 3, 2016, upon the completion of the amendment to the debt settlement of IDB Holding Ltd., the trading of the Company's shares was discontinued, and as of the reporting date, the Company's debentures are listed for trading on the Tel Aviv Stock Exchange.

See Note 4H to the financial statements for details regarding a proposal dated June 2, 2020, which the Company and the trustees for its debentures received from Dolphin IL and as updated on June 21 and June 28, 2020, for the strengthening of the Company's capital structure, by way of an arrangement between Dolphin IL, the Company and the holders of its debentures.

- **B.** In connection with the Company's financial position, its cash flows, and its ability to service its liabilities, it should be noted that:
 - The Company has a deficit on equity attributed to the shareholders, amounting to NIS 1,008 million as of June 30, 2020;
 - The Company has an ongoing negative cash flow from continuing operating activities;
 - The Company's net asset value at a time shortly before the publication of the report (based on the current market prices of its marketable holdings with the addition of the monetary value of other assets and less the financial liabilities is a negative amount of NIS 862 million;
 - At a time shortly before the publication of the financial statements the Company had a very low volume of cash and cash equivalents;
 - In March 2020, IDB Tourism informed the Company that it was operating the mechanism that is set in the contract governing the loan that it had extended to the Company, for the repayment of an amount of 3 million Dollars out of the amount of the loan. See Note 3.C.3 below for details.
 - The Company's debentures are traded at especially high rates, and in the absence of assets free of liens, the Company will apparently find it difficult, from a practical standpoint, to recycle its financial liabilities by way of raising debt;
 - Pursuant to the terms of the swap transaction that the Company has committed itself under, in light of the sharp fall in the value of the shares in Clal Holdings Insurance Enterprises recently and in light of the shortage in free cash balances, the Company has relied on the provision of autonomous guarantees, which have been made available by the controlling interest to the financing bodies, through which the swap transactions were executed and they were released to Dolphin Netherlands, upon the termination of the swap transactions, as stated in Note 3.B.2 and 3.B.3 below. See Note 3.B.4 below for additional details regarding the guarantees from the controlling interest.
 - The continuation of the spread of the Corona virus (Covid-19, "The Corona virus") and the decrease in the volume of bookings and flights in Israir Airlines and Tourism Ltd. ("Israir") have has a significant impact on Israir's operations and on its results and is expected to affect the timing of the sale of the Company's holdings in IDB Tourism and on the consideration that the Company expects to receive within the framework of such a sale.

In addition, the spread of the Corona virus has had a significant impact on the capital markets, where in the reporting period that has been a sharp and significant fall in the market value of the Company's holdings, primarily in the shares in DIC, which form the collateral for the debenture from Dolphin IL and its investee companies and the shares in Clal Holdings Insurance Enterprises.

Note 1 – General (Continued)

B. (Continued)

Since this is an event that is not under the Company's control and because of the nature of the crisis, which is characterized by uncertainty, inter alia, regarding the time at which the pandemic will be halted and as of the time of the approval of the financial statements for the second quarter of 2020 there is no certainty in relation to the extent of the impact of the outbreak of the Corona virus on the economy, which includes, inter alia, the state of the markets, the economic situation in Israel and globally, the extent of the unemployment rate, the extent of private consumption, concern regarding a local or global recession, or an additional outbreak of the virus. Such across the board impact, if and insofar as they may be realized, in whole or in part, may have an adverse impact on the Group companies' businesses and on their results, which may be significant, and the Company is not able to assess if there will be such an impact and what its extent may be, including in relation to the timing of the realization of the Company's assets and the consideration that may be received for such realization, the aforesaid has an impact both on the Company's net assets value and also on the Company's ability to realize those holdings for the purpose of settling its liabilities. The deeper the impact of the Corona virus and/or the longer it continues, the greater the Company's difficulty on meeting the settlement of its liabilities as they fall due.

See Notes 3.C.1, 3.D.4 and 3.E below for additional details regarding the implications of the outbreak of the Corona virus on Israir's, IDBG's and Modi'in's operations.

- In March 2020, the Company received a letter from its Audit Committee, in which it was mentioned, inter alia, that there is tangible concern that the Company is unable to service its debts in the regular course of business and that it had therefore decided to exercise its right under the debenture, which had been issued by Dolphin IL, to accelerate the partial repayment of the debenture and that it was issuing a call for NIS 40 million out of the current adjusted debt for the debenture and it has updated its demand to approximately NIS 12 million instead of NIS 40 million, as stated below. See Note 3.A.3 below for additional details.
- In March 2020, Ma'alot announced the lowering of the Company's rating to one of CC with a negative outlook and rating for the debentures (Series I) to a rating of C which was done become in Ma'alot's assessment there is almost absolute certainty that the Company will reach insolvency in the immediate term. Ma'alot ratified the rating in July 2020.
- See Note 8.E to the annual financial statements for details of meetings of the holders of the Company's debentures, including the appointment of (separate) representatives in the series of debentures (Series I and Series N) and the appointment of a legal adviser and an economic adviser for each of the said series of debentures, and including letters of commitment that the company has provided to the holders of its debentures.
- See Note 4.J below for details regarding decisions by meetings of the holders of the debentures (Series N and O), to call meetings of the holders of the debentures, in connection with the passing of resolutions regarding calling for the immediate repayment of the unsettled balance of the debt towards the holders of the debentures of those series.
- See Notes 4.G below for details regarding the decisions by the Company's Board of Directors to defer the payments of interest to the debenture holders, which were paid in July 2020, after the date of the statement of financial position, instead of June 2020.

On August 31, 2019, the Company's Audit Committee and the Board of Directors approved the acceptance of an irrevocable commitment by Dolphin Netherlands, the controlling interest in the Company, to make capital injections into the Company in an overall amount of NIS 210 million, in three equal annual payments, which will be made in consideration for shares in the Company or as a subordinated loan on similar terms to the subordinated loans that had been provided by the controlling interest. As of the reporting date, the Company has received NIS 70 million as a subordinated loan. In August 2020, the Company received a letter from Dolphin Netherlands, pursuant to which it intends to examine its commitment to inject equity into the Company as aforesaid. See Note 7.C.2 to the annual financial statements and Notes 3.B.4 and 11.G below for details regarding the commitment from Dolphin Netherlands, its letter and the Company's letter of response

In the report of the Board of Directors, which accompanies these financial statements, the Company presents a cash flows forecast (which has not been reviewed or audited) for the period of two years ending on June 30, 2022.

The balance of the Company's liquid assets is NIS 88 million as of June 30, 2020, which includes NIS 67 million in charged deposits. The balance of the Company's liquid assets at a time shortly before the publication of the report is NIS 5 million.

Note 1 – General (Continued)

B. (Continued)

The cash flows forecast includes the receipts that the Company is expected to receive, inter alia, from the sale of shares in Clal Holdings Insurance Enterprises, from, two injections from Dolphin Netherlands, the controlling interest in the company, in a cumulative amount of NIS 140 million (see Note 7.C.2 to the annual financial statements and Note 11.G below, regarding a letter that the Company has received from Dolphin Netherlands and the Company's response to the said letter, regarding Dolphin's intention to examine its commitment to inject equity, as aforesaid) and additional possible sources, which may be available to the Company in the period covered by the forecast, which include, inter alia, the disposal of the Company's holdings in IDBG; the disposal of the Company's holdings in IDB Tourism (see note 3.G. above) the sale of the Company's holdings in Modi'in; and payments on account of the debenture from Dolphin IL under the force of the exercise of the Company's right to accelerate the repayment of the debt pursuant to the terms of the debenture (see Note 3.A.2 to the annual financial statements and Note 3.A.3 below).

See Note 4.H below for details regarding the draft offer that the Company and the trustees for its debentures have received from Dolphin IL for the strengthening of the Company's capital structure, by way of an arrangement between Dolphin IL, the Company and the holders of its debentures. As of the reporting date, there is no certainty in connection with the completion of the arrangement and the timing of its completion, which are dependent upon the receipt of various approvals, which have not yet been received at this stage and which are not under the Company's control.

As of the time of the publication of the financial statements, uncertainty exists regarding the Company's ability to execute its business plans as usual and/or on time and regarding its continued ability to settle its liabilities as usual and/or on time.

The Company's ability to settle its liabilities in the Company year is dependent, inter alia, on the disposal of assets that are held by the Company, some of which are not listed for trading, and the timing of the completion of the disposal of which is not under the Company's control as well as an injection from the controlling interest, as detailed above. The Company's ability to repay the balance of its debts at the timing that is required is dependent, inter alia, on future factors that are not within its control, primarily the economic value of the debenture from Dolphin IL and the cash flows that will derive from it until the time of the end of the company's liabilities to its creditors.

This array of events and circumstances raise significant doubts regarding the Company's continued existence as a going concern.

The classification or adjustments in respect of the carrying values of the Company's assets and liabilities, which may be required if the Company is unable to continue to continue to operate as a going concern, have not been recorded in these financial statements. The Company is acting and will continue to act in order to cope with the uncertainties that are described above.

See Note 8.B below for details of the provisions that are included in the Company's credit agreements regarding rights to demand immediate repayment.

C. These financial statements have been prepared in a condensed framework as of June 30, 2020, and the periods of six months and of three months then ended ("The Interim Financial Statements") in accordance with International Accounting Standard 34, "Financial Reporting for Interim Periods", and they do not include all of the information that is required in full annual financial statements. These reports should be reviewed and read in conjunction with the Company's annual financial statements as of December 31, 2019, and for the year then ended, and the accompanying notes thereto, which were approved on March 31, 2020 ("The Annual Financial Statements"). The notes to the interim financial statements in respect of investments, commitments, commitments and contingent liabilities only include the main updates on these matters, which have since the time of the approval of the annual financial statements.

Note 1 – General (Continued)

D. Non-inclusion of separate information (Regulation 9C):

The Company has not included separate financial information of the Company ("Separate Reports"), in accordance with Regulation 38D of the Reporting Regulations in the financial statements, since such information would not have added any significant information beyond that which is already included in the consolidated intereim financial statements. The condensed consolidated interim financial statements are identical to the condensed interim separate financial statements, except for the following:

- 1. The presentation of the assets and liabilities of IDB Tourism, which appear separately in the consolidated financial statements, under assets held for sale, in an amount of NIS 668 million (net of a loan in an amount of NIS 18 million, which IDB Tourism extended to the Company, and which has been eliminated in the consolidation of the financial statements), under liabilities in respect of assets held for sale liabilities, in an amount of NIS 562 million, and under non-controlling interests in an amount of NIS 5 million. These figures would have been presented in the separate financial information as a net investment, under current as investments classified as held for sale, in an amount of NIS 119 million, assets. The net amount of the investment is presented in Note 3.G below. On the other hand, a loan from IDB Tourism would have been presented under liabilities in respect of assets held for sale in an amount of NIS 18 million.
- 2. Profits and losses from discontinued operations in respect of IDB Tourism, which are presented in the interim consolidated statement, would have been presented in a separate interim statement after deducting non-controlling interests (an immaterial amount see Note 3.H below).
- 3. The cash flow data in respect of IDB Tourism which are detailed in Note 3.H.2 below would not have been recorded under cash flows from discontinued operations.

E. Principle definitions:

In these financial statements (above and below):

IDB Development - The Company and/or the Company together with its wholly-owned

headquarter companies;

The Group - The Company and/or its investee companies;

IRSA Inversiones Y Representaciones Sociedad Anonima – IRSA, a company that

is controlled by Mr. Eduardo Elsztain;

Dolphin Netherlands Dolphin Netherlands B.V., a company that is controlled by Mr. Eduardo

Elsztain, the controlling interest in the Company;

Dolphin IL - Dolphin IL Investments Ltd., a company incorporated in Israel and wholly-

owned by Dolphin Netherlands;

DIC - Discount Investment Corporation Ltd., a company that is controlled,

indirectly, by the controlling interest in the Company;

Clal Holdings - Clal Holdings Insurance Enterprises Ltd.;

Insurance Enterprises

Clal Insurance - Clal Insurance Company Ltd.:

The Commissioner - The Commissioner of the Capital Markets, Insurance and Savings Authority

in the Ministry of Finance;

IDBG - IDB Group USA Investments Inc.;

IDB Tourism - IDB Tourism (2009) Ltd.;

Property & Building - Property and Building Corporation Ltd., a company that is controlled by

DIC

Modi'in - Modi'in Energy Limited Partnership;

Subordinated Loans - Convertible subordinated loans from Dolphin Netherlands, the controlling

interest in the Company (see Note 7.C to the annual financial statements);

Reporting regulations - The Securities Regulations (Periodic and Immediate Reports) - 1970

Note 2 - Significant Accounting Policies

A. The format for the preparation of the interim financial statements

The condensed consolidated interim financial statements have been prepared in accordance with generally accepted accounting principles regarding the preparation of financial statements, as determined in International Accounting Standard 34 - "Interim Financial Reporting", and in accordance with the disclosure provisions detailed in Chapter D of the Securities Regulations (Periodic and Immediate Reports), 1970.

These condensed consolidated interim financial statements were approved for publication by the Company's Board of Directors on August 20, 2020. The significant accounting policies which have been implemented in the preparation of the consolidated interim financial statements are consistent with those that were implemented in the preparation of the annual financial statements.

B. Use of estimates and judgment

In the preparation of the Group's condensed financial statements in accordance with international financial reporting standards, the managements of the Company and of the investee companies are required to use assessments, estimates and assumptions, which affect the implementation of the accounting policy and the amounts at which assets, liabilities, revenues and expenses are stated, as well as the equity components that are presented in the abovementioned statements. It should be clarified that the actual results may be different from these estimates.

The exercise of judgment by the managements of the Company and of its investee companies regarding the implementation of the Group's accounting policy, regarding the significant issues and the assumptions, which have been used assessments involving uncertainty, are consistent with those used in the annual financial statements, as stated in Note 1.F(3) to the annual financial statements. It should be mentioned that as a result of the outbreak of the Corona virus, as stated in Note 1B above, the estimates and the judgments, primarily in relation to the assessments that the Company has made use of, are typified by having considerable measurement risks and they have been made in an environment of considerable uncertainty.

C. Functional currency and presentation currency

These financial statements are presented in New Israeli Shekels (NIS), which is the Company's functional currency, and are rounded to the nearest million, unless stated otherwise. The New Israeli Shekel is the currency that represents the principal economic environment in which the Group operates.

D. Details on the rates of the changes that have occurred in the index and in the exchange rate of the Dollar:

	The I	Exchange rate of the US Dollar		
	Known index	Index in lieu	("The Dollar")	
	Points		NIS	
As of				
June 30, 2020	101.1	101.0	3.466	
June 30, 2019	102.7	102.1	3.566	
December 31, 2019	101.8	101.8	3.456	
Rates of change during the period (in percent):				
For the three months ended				
June 30, 2020	(0.2%)	(0.7%)	(2.8%)	
June 30, 2019	1.5%	0.4%	(1.8%)	
For the six months ended				
June 30, 2020	(0.7%)	(0.8%)	0.3%	
June 30, 2019	1.2%	0.9%	(4.9%)	
For the year ended				
December 31, 2019	0.3%	0.6%	(7.8%)	

Note 2 - Significant Accounting Policies (Continued)

E. The initial implementation of new Standards

Revisions to International Accounting Standard 8 "Accounting Policies, Changes in Accounting Estimates and Errors" (Revision to IAS 8) and revision to International Accounting Standard 1 "Presentation of Financial Statements" (Revision to IAS 1)

The revision to IAS 8, the revision to IAS 1 and the revisions to international financial reporting standards that followed them:

- a. A consistent definition of materiality is used over the various standards and the conceptual; framework;
- b. The explanation of the definition of materiality is clarified; and
- c. Some of the guidance relating to immaterial information is integrated into IAS 1.

The amended definition is as follows: "Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of a specific reporting entity's general purpose financial statements make on the basis of those financial statements".

The said revisions are to be implemented prospectively on January 1, 2020. The initial implementation of the revisions has not had a significant impact on the financial statements.

Note 3 - Investments

A. Investment in the debenture from Dolphin IL

1. As of June 30, 2020, the fair value of the debenture from Dolphin IL, as described in Note 3.A. to the annual financial statements, was valued by an independent external appraiser at an amount of NIS 556 million, and accordingly, the Company recorded financing expenses of NIS 419 million and in the first half of 2020 and financing income of NIS 142 million in the second quarter of 2020. See Note 1.B above for details regarding the impact of the outbreak of the Corona virus on the capital market in general and on DIC's holdings in particular. The decrease in the value of the debenture in the first half of 2020 derived from the significant decreases in the market value of DIC's investee company's.

Pursuant to Regulation 49(a) of the Reporting Regulations, an economic paper regarding the fair value of the debenture which was received by the Company within the framework of the transaction in November 2017, in which the Company's holdings in DIC were sold to a company controlled by the controlling interest, as of June 30, 2020 is attached to these financial statements.

See Note 7 below for additional details regarding the debenture from Dolphin IL

- 2. <u>The value of collateral</u> as of June 30, 2020 and at a time shortly before the publication of the financial statements, liens had been made available as collateral for the debenture as detailed below:
 - A specific, first ranking lien on 17,158,242 shares in DIC and on 10,037,571 debentures (Series I) issued by the Company.
 - A specific, second ranking lien on 99,258,708 shares in DIC and on 58,066,344 debentures (Series I) issued by the Company.
 - The market value of the said collateral as of June 30, 2020 and at a time shortly before the publication of the financial statements, was NIS 527 million and NIS 643 million, respectively.
- 3. On March 12, 2020 the Company received a letter ("The letter") from its Audit Committee ("the Committee"), which was addressed to the Chairman of the Company's Board of Directors, Mr. Eduardo Elsztain, who also holds office as a Director in Dolphin IL. Within the framework of the letter, the Committee mentioned that since according to data that had been provided to it by its financial advisors, tangible concern exists that the Company is unable to service its debts in the regular course of business, the Committee has decided to exercise its right under the debenture from Dolphin IL ("The acceleration right"). The Committee detailed the main uses and payments that the Company, which is required to make in the coming weeks (at the time of the letter), in its letter, which amount to NIS 40 million. Accordingly, the Committee noted that in order for the Company to have sufficient resources and liquid means that it would be able to use to continue to settle the Company's debts in an orderly manner, the Committee's notification should be seen, at this stage, as the exercise of the acceleration right and the calling for an amount of NIS 40 million out of the current adjusted debt pursuant to the bond.

A. Investment in the debenture from Dolphin IL (Continued)

3. (Continued)

Taking note of the spread of the Corona virus (Covid-19) in Israel and globally, and taking note also of the extreme circumstances that have arisen and the unprecedented fluctuations in the capital markets at that time, the Company has approached its controlling interest and together with him it has formulated an outline for action, with the Committee's agreement ("The outline"). The following are the main points of the outline, which have been discussed and approved by the authorized bodies in the Company:

- The Committee has announced that it is updating its demand pursuant to the letter, such that the amount of the demand for an injection from the controlling interest in the Company, under the force of the acceleration right, will stand at NIS 12 million at the present time, instead of NIS 40 million ("The acceleration amount"). The acceleration amount will be transferred to the Company by Dolphin Netherlands as a payment of interest on the debenture, pursuant to its terms ("The interest payment"). An amount of NIS 11 million out of the interest payment, will be transferred as payment of the interest to the holders of the Company's debentures (Series N), which was payable on March 30, 2020.
 - The balance of the acceleration, together with the Company's existing resources, will be used by the Company's management to execute the routine payments that are required for the Company for the purpose of its operating activities.
- The Company's management will take action to update its liabilities vis-à-vis the holders of the Company's debentures under the force of the Company's letter of commitment of October 24, 2019 (see Note 8.E.5 to the annual financial statements for details), in cooperation with the representatives of the holders of the debentures, in such manner that such updated commitments would be in effect for a period of 90 days. See also Note 4.F below.
- During the course of the period, as stated above, the Company will act together with the controlling interest to formulate a plan and an outline for action in connection with the Company's financial position and for the continuing settlement of its commitments.
- The Company will cooperate with IDB Tourism and with Israir for the purpose of examining a number of solutions or alternatives in connection with Israir's financial position, including in relation to a loan that had been made available to the Company by IDB Tourism (see Note 3.C.3 below for details).

Accordingly, an amount of NIS 12 million has been transferred to the Company and recognized as interest income on account of the debt in the first quarter of 2020. An amount of NIS 11 million out of this amount was transferred for the purpose of the payment of interest to the holders of the debentures (Series N).

Further to what is stated in Note 3.A.2.c.(1) to the annual financial statements, it should be clarified that at the time of the operation of the acceleration clause for the payments pursuant to the debenture, as stated in Note 3.A.2.h to the annual financial statements, if the purchaser does not pay the acceleration payment that is required, then the Company is entitled to take action to realize the charged securities where in relation of the shares that are charged for the debentures (Series N), such realization will be subject to the agreement of the holders in a special resolution. The realization of the balance of the shares that are charged for the Company (as detailed in Note 3.A.2.c.2 to the annual financial statements) ("The DIC shares that are charged in support of the Company"), may be done subject to the procedural provisions pursuant to the provisions of the law and the terms of such liens in relation to the exercise processes for the lien, which includes, inter alia, the agreement of the Ministry of Communications (pursuant to the provisions of Cellcom's license). It should be clarified that the exercise of the acceleration of payments section, as aforesaid, is subject to a cumulate restriction to 15% of the amounts due at that time pursuant to the debenture and in any event the acceleration payment may not accede the amount that is required for the Company, where any such payment in respect of the secured debenture is also charged for the debentures (Series N). As of June 30, 2020 and at a time shortly before the publication of the financial statements, the amount of shares in DIC, which are charged in support of the Company, and which are not subject to the terms of the secured debenture, is approximately 7.5 million shares, whose value in accordance with their prices on the Stock Exchange at a time shortly before the publication of the financial statements is approximately NIS 40 million.

A. Investment in the debenture from Dolphin IL (Continued)

3. (Continued)

It should be emphasized that pursuant to what is stated in Note 3.A.2.g to the annual financial statements, the Company and/or its creditors (and anyone acting on their behalf) will not have a right of recourse vis-à-vis the purchaser and/or its shareholders, its directors or anyone acting on its behalf.

4. On May 9, 2020, Dolphin IL notified the Company, in accordance with the terms of the debenture, of the postponement of the interest payment date, which was due on May 22, 2020.

B. Investment in Clal Holdings Insurance Enterprises (held for sale)

1. See Sections 1-9 of Note 3.B to the annual financial statements for details regarding the appointment of a trustee for the Company's holdings in Clal Holdings Insurance Enterprises regarding the establishment of an outline for the sale of the Company's holdings in Clal Holdings Insurance Enterprises Clal Holdings Insurance Enterprises, and regarding the execution of sales of shares in Clal s Insurance Enterprise Holdings in accordance with the sale outline

The following are the movements in the Company's investment in Clal Holdings Insurance Enterprises Clal Holdings Insurance Enterprises' during the reporting period, as well as changes in the swap transactions

	Direct Holdings of Shares	Holdings Through SWAP Transactions	Average selling Price Per Share	
Date	<u> </u>		NIS	Note
31/12/2019	*8.5%	8.2%		
14/01/2020	=	(1.1%)	45.09	3.B.2
24/06/2020	-	(5.0%)	30	3.B.2
30/06/2020	*8.5%	2.1%		
06/07/2020		(2.1%)	29.95	3.B.3
20/08/2020	*8.5%	-		

^{* 5%} of the Company's holdings in shares are charged in support of the holders of the debentures (Series O). The consideration for the balance of the holdings (3.5% of the shares in Clal Holdings Insurance Enterprises) are also charged in support of the holders of the debentures (Series O).

2. Additional details

- On January 14, 2020, the Company ended the swap translation dated November 8, 2018 in relation to 751,000 shares in Clal Holdings Insurance Enterprises (approximately 1.1% of its issued capital) at an average price of NIS 45.1 per share. The partial ending of the transaction was done against a payment of NIS 13 million to the financing body.
- On June 23, 2020, the Company received a proposal from a party that is not related to the Company and/or to the controlling interest therein, for the sale off the Stock Exchange of 3,375,000 shares in Clal Holdings Insurance Enterprises, constituting approximately 4.99% of its issued capital ("The shares being sold"), at a price of NIS 30 per share. After a discussion in the Company's Board of Directors it was decided to accept the proposal. Accordingly, the Company insurrected the financial bodies with which it had committed under the swap transactions, that they were to take action to end the swap transactions in relation to the shares being sold, as aforesaid, and it also approached the trustee for the shares in Clal Holdings Insurance Enterprises in order to receive his approval for the termination of the swap transactions in the said format.
- On June 24, 2020, the entire August 2018 transaction was closed against the payment of an amount of NIS 91 million, which was executed from the deposits that had been charged in support of the transaction. The balance of the deposit that had been charged in support of the transaction in an amount of NIS 19 million was released to the Company, and an amount of NIS 40 million of the autonomous guarantees that had been provided by Dolphin Netherlands, as stated in Note 3.B.4 below was released to Dolphin Netherlands.; in addition, the November 2018 was partially closed against the payment of an amount of NIS 20 million, which was executed from the deposits that had been charged in support of the transaction. Autonomous guarantees in an amount of NIS 5 million, which had been provided by Dolphin Netherlands, as stated in Note 3.B.4 below was released to Dolphin Netherlands.

B. Investment in Clal Holdings Insurance Enterprises (held for sale) (Continued)

3. The following are the main details regarding the swap transactions, which were executed and are in effect as of June 30, 2020:

		Net value	Balance of the charged deposit (3)
Time of the establishment of the transaction ⁽¹⁾	Base price	As of June 30, 2020 NIS millions	
	NIS		
08/11/2018	62.00	(48)	66

- (1) The said balance relates to an "additional transaction" as defined in Note 3.B.2 to the annual financial statements, the balance of which as of June 30, 2020 related to 1,416,618 shares.
- (2) The balance of the charged deposits is presented under current assets as charged deposits in the statement of financial position.

On July 4, 2020, after the date of the statement of financial position, the Company received a proposal from a party that is not related to the Company and/or to the controlling interest therein, for the sale off the Stock Exchange of the balance of the shares in the abovementioned swap transaction at a price of NIS 29.95 per share and after a discussion in the Company's Board of Directors it was decided to accept the proposal. Upon the completion of the sale of the shares, the swap transaction was closed on July 6, 2020 against a payment of NIS 46 million to the financing body, which was executed from the balance of the deposit that had been charged against the transaction. The balance of the deposit, in an amount of NIS 21 million, was released to the Company. The balance of the autonomous guarantees that had been provided by Dolphin Netherlands, as stated in Note 3.B.4 below, in an amount of NIS 12 million was released to Dolphin Netherlands

4. Pursuant to the terms of the swap transactions in connection with shares in Clal Holdings Insurance Enterprises, which are detailed in Note 3.B.10 to the annual financial statements ("The swap transactions"), which were closed in the period from January to July 2020, as stated in Note 3.B.2. and 3.B.3 above and in light of the decrease in the value of the shares in Clal Holdings Insurance Enterprises in February and March 2020, after the receipt of the approvals of the Company's Audit Committee and Board of Directors on several decisions, Dolphin Netherlands made autonomous guarantees available to the financing bodies ("The banks"), through which the swap transactions had been executed, in a cumulative amount of NIS 57 million (for both of the banks), which form part of the charged deposits, in respect of which the Company has given a commitment within the context of the terms of the said swap transactions ("Dolphin's commitment"). Pursuant to Dolphin's commitment, the banks were only entitled to exercise the guarantees in a case in which one of the swap transactions has ended (pursuant to its terms and including if it is ended prematurely), and only if at the time of such a termination there had been a shortage in the amounts of the charged deposits that the Company has made available to the banks (pursuant to the terms of the swap transactions, as detailed in Note 3.B.10 to the annual financial statements).

The Company has received the approval of the banks for the receipt of the guarantees from Dolphin Netherlands.

Taking note of the continuing fall in the value of the shares in Clal Holdings Insurance Enterprises on the Stock Exchange, the Company has received approaches from the banks, in which they warned that pursuant to the terms of the swap transactions, even after the making available of the said deposits by Dolphin Netherlands, the supplementation of the charged deposits was required, in a cumulative amount of NIS 32 million.

On March 15, 2020, the District Court in Tel-Aviv ("The Court") acceded to the Company's petition and determined that it would award a temporary restraining order preventing the sale of the shares, which constitute approximately 4% of Clal Holdings Insurance Enterprises' issued share capital, in respect of which a swap transaction has been executed through one of the banks. On March 26, 2020, the Company reached agreements with the bank regarding the issues that were in dispute, which received the Court's approval ("The agreements").

B. Investment in Clal Holdings Insurance Enterprises (held for sale) (Continued)

4. (Continued)

It should be clarified that pursuant to the agreements, the bank was not entitled to sell the swap shares (or part thereof) and the Company was not required to increase the scope of the charged collateral (for which the Company had made a commitment within the framework of the terms of the swap transactions opposite the bank, as detailed in Note 3.B.10 to the annual financial statements). Furthermore, within the framework of the agreements, certain circumstances were updated, which might have afforded the bank the right to close out the swap transaction with the bank and to sell the swap shares.

The swap transaction ended in June 2020, as stated (see Note 3.B.2 above) without the Company or the controlling interest being required to supplement additional deposits.

After the termination of the swap transactions, as stated in Note 3.B.2 above, the balance of the charged guarantees, which have been made available by Dolphin Netherlands pursuant to Dolphin's commitment, stands at NIS 12 million as of June 30, 2020 and it was released to Dolphin Netherlands upon the end of the transaction in July, 2020, as stated in Note 3.B.3 above.

- 5. The investment in Clal Holdings Insurance Enterprises is presented in the Company's financial statements as of June 30, 2020, as an asset held for sale, under investment in shares in Clal Holdings Insurance Enterprises, and it is measured at fair value through profit or loss.
 - The resultant effects on the Company's holdings in Clal Holdings Insurance Enterprises (including in respect of the swap transaction), primarily the changes in the fair value of the Company's holdings, are presented under discontinued operations, in light of the Commissioner's outline for the sale of the shares. The Company intends to work towards the sale of the shares also in accordance with its financing requirements, and with the intention of maximizing the consideration for them. The abovementioned presentation is in accordance with the provisions of IFRS 5.
- 6. The market value of the shares in Clal Holdings Insurance Enterprises which are held by the Company (including the market value of the shares in respect of which the balance of the swap transaction was executed, as stated in Note 3.B.3 above) is NIS 207 million as of June 30, 2020. The difference between the abovementioned value of the shares in Clal Holdings Insurance Enterprises as of June 30, 2020 and as of March 31, 2020 and the value of the shares as of December 31, 2019, amounted to a negative amounts of NIS 244 million and NIS 4 million, respectively, and was reflected under discontinued operations in the statement of income. The abovementioned difference is stated after the closure of the swap transactions, as stated in Note 3.B.2 above into account.
- 7. On May 4, 2020, the District Court in Tel-Aviv acceded to the Company's petition (which was submitted with the Commissioner's agreement) and instructed the deferral of the sale of 3.2% of the shares in Clal Holdings Insurance Enterprises pursuant to the outline (which is detailed in Note 3.B.1 to the annual financial statements), until September 3, 2020, instead of May 3, 2020, in accordance with the outline.
 - Accordingly, the Company is committed to selling the last tranche pursuant to the outline, at a rate of 3.5% of the shares in Clal Holdings Insurance Enterprises by September 3, 2020, and after such a sale, the Company will remain holding 5% of the shares in Clal Holdings Insurance Enterprises, which are not subject to the outline.
- 8. Shortly before the time of the approval of the financial statements, there was a positive difference of NIS 33 million, between the value of shares in Clal Holdings Insurance Enterprises (including the shares in respect of which the swap transaction, which was been closed, as stated in Note 3.B. above was executed) shortly before the time of the approval of the financial statements and the value as of June 30, 2020.

C. Investment in IDB Tourism (held for sale)

1. IDB Tourism is a company that is wholly owned by the Company, whose principal activity is concentrated in Israir Airlines and Tourism Ltd. ("Israir"), which is wholly owned by IDB Tourism. IDB Tourism's assets and liabilities are presented as held for sale.

In 2017, the Company made a commitment under an agreement for the sale of Israir's entire issued and paid up share capital. The transaction was not executed, however the Company is continuing to assess alternatives in connection with the sale of its holdings in IDB Tourism and/or in Israir, and therefore, the Company is continuing to treat IDB Tourism, in the financial statements as of June 30, 2020, as held for sale and as a discontinued operation, in accordance with the provisions of International Financial Reporting Standard 5 ("IFRS 5").

IFRS 5 determines that an asset that is held for sale is to be presented in accordance with the lower of the carrying value in the accounting records and the fair value less selling expenses and accordingly the Company's and IDB Tourism's results, as expressed in the consolidated financial statements, do not of necessity reflect Israir's results.

The implications of the outbreak of the Corona virus on Israir's business operations and those of its investee companies

During the reporting period, the management of the Israir Group has been continuing to act continuously throughout the period of the crisis in order to identify sources of revenues, for example operating cargo flights, flights to bring in new immigrants and rescue flights, which would enable the covering of the operating expenses in the course of the crisis period. In parallel, Israir has been continuing to monitor the developments in Israel and globally in connection with the Corona virus, routinely, and they have been examining the implication for the Israir Group's operations. As a result of a series of directives and recommendations made by the Ministry of Health, there has been a sharp reduction in the volume of bookings, in the occupancy rate on flights and in the average revenues per customer. These trends are relevant for all of the Israir Group's fields of activity and Israir has executed a series of actions in their wake, of which the main ones are:

- The cancellation of the timetable for international flights as from the middle of March 2020 and until further notice, except for specific flights that are performed on an ad-hoc basis for a specific purpose.
- The conversion of Israir aircraft to perform cargo flights (Since March 2020, up to a time shortly before the publication of the financial statements, Israir has performed 100 cargo flights to China, London and to various destinations)
- The cancellation of the summer programs, including the cancellation of the opening of new holiday destinations that were planned for the summer of 2020.
- The completion of the approvals process, where Israir has been enables to develop its abilities in the field of cargo flights, including the conversion of some of its aircraft to perform cargo flights, the receipt of approvals for flying hazardous materials and for flying over the sea, the receipt of permits for flying to new destinations, such as Thailand, Hong-Kong, India and China. Since March 2020 and up to the time of the signing of the financial statements, Israir has executed some 150 cargo flights to China, India and London and to various other destinations.
- Israir has executed approximately 100 rescue flights to return Israelis from abroad, which has been subsidized partially by the Ministry of Transport since March2020 and up to the time of the signing of the financial statements.
- The maintenance of the Tel-Aviv to Eilat line flight path, throughout the period of the crisis, with a frequency of two to seven daily flights in combination with a "safety cushion", which has been provided by the Ministry of Transport to ensure minimal revenues in respect of those flights.
- The receipt of approval from the Knesset for the amendment of the Aviation Services Law, which enabled the deferral of refunds to customers as a way of providing relief for the cash flows of the aviation companies in Israel.
- The receipt of official approval from the Ministry of Finance and from two banking corporations in Israel for cash flow support by way of a loan in an amount of approximately NIS 136 million as set forth in Note 3.C.4 below.

C. Investment in IDB Tourism (held for sale)

1. (Continued)

The implications of the outbreak of the Corona virus on Israir's business operations and those of its investee companies (Continued)

- The adjustment of Israir's expenses structure and stringent management of the cash flows, inter alia, by means of placing more than 250 employees on unpaid leave, salary reductions among recipients of high salaries in the Israir Group, the utilization of accrued vacation leave, the cancellation of wet leases, the freezing of projects, the enhancement of operating areas in the airport and in Israir's offices and etcetera.
- An approach to Israir's main suppliers, including aircraft lessors in support of renegotiations of the commercial terms, in support of adjusting the structure of the expenses to the extent of the activity that is expected pursuant to Israir's strategic plan for the years 2020 2023.
- An approach to Israir's suppliers in support of the return of advances and the exhaustion of collection processes opposite Israir's customers.
- The obtaining of approval from a banking corporation for the adjustment and suspension of the financial covenant regarding the net financial debt to EBITDA ratio for the period from June 30, 2020 to June 20, 2021 (inclusive), subject to terms that have been agreed with the banking corporation. Furthermore, Israir has approached the banking corporation with a request to execute the early repayment of part of the bullet component in an amount of approximately 13 million dollars out of the aircraft loan (which is repayable in April 2023) and to reschedule the balance of the bullet component until 2026. On June 29, 2020, the bank gave its agreement, subject to the conditions that are set forth in a document, which has been signed between Israir and the banking corporation.
- An approach to the Company in order to receive the return of 5 million Dollars of the loan that was extended to it by Israir, see also Note 3.C.3 below.

See also Note 3.C.4 regarding developments after the date of the statement of financial position.

As of a time shortly before the publication of the financial statements, in light of the decisions that have been made by government officials and health organizations in Israel and across the globe in light of the outbreak of a second wave of the Corona virus and as a result of this, the uncertainty in respect of the time at which the regulatory restrictions that currently exist in the aviation and tourism sector will be eased, and the timing which consumers' vacation patterns will return to normal, as of the time of the signing of the financial statements, Israir is unable to assess the potential damage to the Israir Group's operations and nor is it able to make a reliable assessment of the impact on its business results in the long-term

Pursuant to the Israeli government's and the Ministry of Health's directives, on August 13, 2020, after the date of the statement of financial position, the outline for "opening the skies" was approved, which enables leaving and retuning within a quarantine duty, but subject to the performance of a Corona test, to specific countries in which the infection rates are low and which have been defined as "green" countries. This outline will enable tourism activity to destinations that have been approved, and Israir is continuing to take action opposite the relevant bodies in support of the expansion of the list of destinations in order to increase the number of destinations offered and the volume of activity. Israir is continuing to monitor routinely the developments in Israel and globally in connection with the Corona virus, and it is monitoring the decisions that are made by government bodies and health organizations in Israel and globally and it is updating the adjustment plan pursuant to which it has been operating since the beginning of February 2020.

In their review reports on IDB Tourism's and of Israir's financial statements, the external auditors draw attention to the uncertainty that exists as a result of the outbreak of the Corona virus, which has led, as aforesaid, to a crisis in the markets in general and in the aviation and tourism sector in particular and the implications on Israir's business activities.

However, pursuant to Israir's cash flows forecast for the period of 24 months as from a time close to the publication of the financial statements, which include the receipt of loans with a guarantee from the state, as stated in Note 3.C.4 below, the return of 5 million Dollars from the Company in 2020, insofar as this may be required, as well as the performance of flights to "green countries". On the basis of the aforesaid, Israir expects to meet all of its commitments, including the repayments to banking corporations and others in the foreseeable future.

C. Investment in IDB Tourism (held for sale)

1. (Continued)

The outbreak of the virus may also have implications for the timing of the sale of the Company's holdings in IDB Tourism and the consideration that the Company may receive within the framework of such a sale. See also Note 3.C.2 below.

2. In the wake of the aforesaid, IDB Tourism has tested Israir's fair value as of March 31, 2020, by means of an independent external appraiser. The appraiser assessed Israir's value in a range of between 31 million Dollars and 59 million dollars (including a debt of 5 million dollars as stated in Note 3.c.3 below). IDB Tourism's net asset value in the statement of financial position as of March 31, 2020 reflects a company value of approximately 34 million dollars for Israir, which includes a loan of 5 million dollars, which was provided to the Company by IDB Tourism, as stated in Note 3.C.3 to the financial statements. This value is approximately 21% lower than the middle of the evaluation range and approximately 9% higher than the lower end of its range and reflects the management's assessment of the amount that the Company can receive from the sale of Israir during this challenging time.

For the purposes of the evaluation, Israir's cash flows have been discounted in accordance with a discount rate of 12.6%, where the abovementioned range of values reflects a discount rate of 11.3% - 13.8%.

Taking into account the impairments in value that had been recognized in previous years (see also below), and IDB Tourism's results for the first quarter of 2020, and in light of the abovementioned evaluation, the Company recognized a net comprehensive loss of NIS 13 million in its financial statements for the first quarter of 2020.

In the Company's assessment, based on contacts for the sale of the holdings in Israir, the said value reflects the consideration that the Company expects to receive in consideration for its holdings in IDB Tourism as of June 30, 2002 as well.

- 3. In October 2019, the Company received a loan of 5 million Dollars from IDB Tourism. The loan is linked to the exchange rate of the Dollar and bears interest at a rate of 5.1% a year. Pursuant to the terms of the loan, its repayment time was set for March 31, 2020.
 - On March 13, 2020, IDB Tourism informed the Company that it was operating the mechanism that is set in the said loan contract, and was calling for the repayment of an amount of 3 million Dollars out of the amount of the loan, within a time frame of up to 7 days. The Company referred to IDB Tourism and without entering into any claims whatsoever, which it has and taking note of the Corona crisis, which is prevalent in the markets and the implications thereof for the whole economy and for the Company, it suggested to it that it give consideration to withdrawing the said demand, and that instead of this it should continue to discuss the situation and possible alternative solutions with the Company. IDB Tourism responded that in the event that it does not return the loan, it will refer the matter to legal proceedings. In parallel, and in light of the non-repayment of the loan by IDB Tourism, on March 19, 2020, Bank Leumi confiscated a charged deposit in an amount of approximately 3 million dollars against the loan that it had provided.

On July 8, 2020, after the date of the statement of financial position, the Company transferred an amount of NIS 1 million to IDB Tourism as a partial repayment on account of the loan. The Company intends to transfer an additional amount of NIS 0.7 million to IDB Tourism.

4. On May 7, 2020 a letter was sent to Israir from the Ministry of Finance regarding the state's position regarding the making available of a guarantee by the state for banking loans for Israir ("The letter"), according to which the State will consider making a state guarantee available in support of loans that would be provided to Israir by banks in Israel, in accordance with the commercial terms that may be agreed between Israir and the lending banks ("The loan" and "The lending bank", respectively, which would be at a rate of up to 75% of the amount of the loan, which would be up to NIS 100 million. The letter also included provisions in connection with collateral, which will be made available in support of the loan, as aforesaid, as well as additional provisions in connection with the repayment or the amendment of the terms of the loans or other credit, which has already been made available to Israir.

C. Investment in IDB Tourism (held for sale)

4. (Continued)

On July 8, 2020, after the date of the statement of financial position, Israir received official approval from the Ministry of Finance and from two banking corporations for the increasing of the loan to an amount of NIS 136 million and on July 13, 2020, Israir received the first tranche of the loan, in an amount of INS 75 million with a 75% guarantee from the state. The loan bears interest at a rate of prime +1.5% a year for a period of 7 years, where no principal is repayable in the 18 months of the loan. Within the context of the loan agreement, a deposit has been guarantees at the level of 5% of the amount of the loan.

On July 28, 2020, Israir received approval from an additional banking corporation and the Ministry of Finance for an additional loan in an amount of NIS 61 million with a guarantee from the state at a rate of 75% as well as its agreement in principle for the increasing of the loan to an amount of NIS 100 million. The increasing of the loan, as aforesaid, is subject to the receipt of approval from the Ministry of Finance, which has agreed to give positive consideration to an increase in the extent of the loan with a guarantee from the state to a higher percentage, in approximately two months' time and in accordance with the situation at that time.

D. Investment in IDBG (held for sale)

- Further to what is stated in Note 3.D.2 to the annual financial statements regarding a loan in an amount of 50 million Dollars (principal), which Property & Buildings has made available to IDBG and regarding the conversion mechanism that is set therein, on February 17, 2020, the said conversion mechanism was operated. The ratio in accordance with which the conversion was executed was determined in accordance with the average of three evaluations that had been performed by three independent external appraisers, pursuant to which it was determined that after the operation of the conversion mechanism, Property & Building's rights in IDBG's share capital would stand at 74.18%, and the Company's rights in IDBG's share capital would stand at 25.82% and that Property & Building and the Company's rights to the repayment of the shareholders' loans that had been extended to IDBG (the balance of the loans in accordance with the said facility agreement with the addition of the loans that are described in Note 3.D.5 to the annual financial statements) shall be in accordance with the updated ratio of their holdings in the share capital. Following the conversion, as aforesaid, the Company recorded an increase of NIS 61 million in the investment in IDBG against equity attributed to shareholders (capital reserve on transactions with controlling interests.
- 2. In November 28, 2019, after a discussion had been held on the subject in the Company's Board of Directors, the Company approached Property & Building, with a proposal to open negotiations for the sale of the Company's entire holdings in IDBG. It should be mentioned that within the framework of the proposal, the Company did not offer any terms whatsoever for a transaction. On February 26, 2020, after the implementation of the conversion mechanism, as detailed in paragraph 1 above, Property & Building's Board of Directors empowered its Audit Committee to serve as a special committee, which is to make an independent examination of the possibility of acquiring the Company's holdings in IDBG. Property & Building's Audit Committee to conduct negotiations with representatives of the Company to progress such a transaction.

On March 15, 2020, the Company received a letter from Property & Building's Audit Committee, in which it informed the Company that Property & Building would be prepared to acquire the balance of the Company's holdings in IDBG at a price reflecting a discount of 25% on the average value of the three appraisals that had been performed by the independent external appraisers, in connection with the conversion mechanism, and subject to a number of aspects, which the Committee mentioned in its letter.

In May 2020, after the date of the statement of financial position, the Company signed on an agreement for the sale of the Company's rights in IDBG to Property & Building. The agreement was signed after a number of discussions that were held between the parties and after a number of meetings on the subject. The Company's Audit Committee has approved the main points of the terms of the transaction and after the receipt of the approvals of Property & Building's Audit Committee and Board of Directors, the Company signed on the agreement. The consideration in the transaction amounted to 27.8 million dollars in consideration for the Company's entire holdings in IDBG as is.

D. Investment in IDBG (held for sale) (Continued)

2. (Continued)

The approval of the transaction was subject, inter alia, to the approval of a general meeting of Property & Building's shareholders, which was convened on June 23, 2020 and which decided not to approve the commitment.

3. The valuation of the Tivoli project in Las Vegas was updated in the first quarter of 2020 to an amount of USD 233 million. As a result, the Company recorded its share in the net write down in an amount of NIS 4 million, which was recorded under discontinued operations.

The write down derived primarily from a decrease in the expectations regarding net rental income. The valuation report of the Tivoli Project is attached to the financial statements by way of referral to Property and Building's financial statements as of March 31, 2020, which have been submitted to the Securities Authority and which were published on June 25, 2020 (Document number 2020-01-067065).

4. The impact of the outbreak of the Corona virus on IDBG

Following the outbreak of the Corona virus, as from March 24, 2020, the center in the Tivoli project was closed, for the most part, pursuant to the directives issues by the Governor of the State of Nevada. The project was reopened on May 15, 2020, subject to restrictions that have been imposed by the authorities.

During the course of the period in which the center was closed, for the most part, vital activities such as banks and clinics were authorized to work in it, in addition to which a number of restaurants worked in a format of deliveries and take away. The center management activity was reduced to the minimum necessary for business that operated in the center in that period and some of the activities were discontinued completely (such as parking, cleaning and gardening services and etcetera). This reduction has led to a saving of approximately 36% in the center's operating expenses in the relevant period.

The occupancy rate in the project stood at approximately 73% before the outbreak of the Corona virus and as of June 30, 2020. During the course of the period of the closure, a number of tenants encountered difficulties and gave notice of the cessation of their activity in the project. Furthermore, a number of tenants announced that they would not be extending their rental agreements in the project, which are about to expire, however, on the other hand, a number of new contracts were signed during the period. The rental fees for March 2020 were collected without any significant change as compared with previous months. Approximately 70% of the rental fees for April and May 2020 and approximately 82% of the rental fees for June have been collected up to now. As of this time, the project's management has not set a uniform policy in connection with the granting of reliefs for tenants and a specific discussion is held opposite each tenant. As of this time, agreements have been reached with a limited number of tenants that they will be exempt from the payment of rental fees for a period of 60 to 90 days in consideration for the extension of the rental period by a similar period.

The management of the project is taking action to complete the collection for the period. The management is continuing to hold negotiations for the rental of additional areas in the project

The bank that is accompanying the project, the Bank of Nevada, has been cooperating with IDBG's management during this period and it has approved the financing of the payments of interest in the period from May to July 2020 for IDBG out of the reserve that exists in the project's account in the bank and not out of the current cash flows, as is required pursuant to the loan agreement.

E. Investment in Modi'in – an investee partnership that is treated at equity

1. The implications of the Corona virus for Modi'in

Against the background of the Corona pandemic, as of the time of the approval of the financial statements, the virus is continuing to spread across the globe. In the wake of the virus, lockdowns and restrictions have been imposed in many countries in the globe. The first half of 2020 has been typified by a significant slow-down in global economic activity, by a sharp decline in demand for energy and primarily in the demand for oil and natural gas.

The sharp decline in the demand for oil, together with the struggle between Russia and Saudi Arabia in connection with the output of the oil, which they produce, have led to sharp declines in the prices of oil and have reached a nadir in which the future price of a West Texas Intermediate (WTI) type barrel was being traded at a price that reflects a negative price for a barrel of oil. It should be mentioned that there has been a marked recovery in the price of oil, such that in August 2020, a WTI type barrel is being traded at approximately 42 dollars a barrel and a Brent type barrel is being traded at approximately 45 dollars a barrel. The sharp decline in the demand for oil and in the price of oil have a significant impact on the oil and natural gas exploration and production field.

The partners in the project in which Modi'in is a partner in the United Stated have decided to freeze the continuation of the performance of production tests in the Stenderup 66Z-28 well in the Mountain View project and the continuation if the performance of production tests in the Shideler-1 well in the Shideler project. Furthermore, it has been decided to defer the works for the renewal of the production from the Cattani-Rennie 47X-15 well in the Mountain View project. The partners intend to renew such production tests and the works for the renewal of the production from the Cattani-Rennie 47X-15 when the markets stabilize and there is a recovery in the oil prices. These actions, which have been taken do not have a significant impact on the results of Modi'in's operations in the reporting period.

To the best of Modi'in's knowledge, as of the time of the approval of the financial statements, and similarly to companies in the oil and gas industry, the Coronavirus has had a negative impact on Modi'in's operations in the reporting period as a result of the uncertainty and the decline in demand for natural energy, as aforesaid.

If and insofar as there may be a significant decrease in the price of oil, as aforesaid, Modi'in and its partners in the project will need to examine their steps taking into account, inter alia, the economic feasibility of continuing production as opposed to suspension and the costs of storing the oil.

Modi'in's operations involved large monetary expenses and a high level of financial risk and uncertainty. A continuation and/or a worsening of the situation in the markets and in the oil price may have a significant impact on Modi'in's business and on its operating results.

Furthermore, it should be mentioned that even if a significant decrease in Modi'in's revenues were to be caused, the management of Modi'in's general partner is of the opinion that Modi'in will meet all of its existing and expected commitments in the foreseeable future.

2. In May 2020, Modi'in raised an amount of approximately NIS 4 million within the framework of the issuance of shares and options ("The initial public offering"). The Company did not participate in the initial public offering and accordingly the Company's holding rate in Modi'in decreased to 19.05%.

After the execution of the initial public offering, Modi'in issued options (Series 16 and 17) to the holders of its participation units and the holding of its existing options (Series 16 and 17), by way of rights. Within the framework of the rights issue, the Company received approximately 175 thousand options of each of the series without consideration.

Each of the options are exercisable into one participation unit in Modi'in. A series 16 option is exercisable until December 20, 2020, for consideration of NIS 5 per option. A series 17 option is exercisable until May 1, 2022, for consideration of NIS 10 per option.

The additional payment on the exercise of the two series of options is linked to the rate of the Dollar, in accordance with a base rate of NIS 3.527 to the Dollar.

F. Investment in Colu Technologies (GB) Limited ("Colu")

In March 2020, most of the Token holders (CLN) including the Company converted the Token into shares in Colu. In addition, the Company has converted its investment in the convertible equity investment into shares in Colu. Shortly before the time of the publication of the report, the Company holds approximately 14% of the shares in Colu (at full dilution).

In the first quarter of 2020, the Company recorded impairment in value of NIS 9 million in respect of impairment in the value of its investment in shares in Colu. The impairment in value derived primarily from delays in the execution of Colu's work plan and from an expected decrease in its revenues in the coming two years, which have been caused, inter alia, as a result of the impact of the outbreak of the Corona virus.

G. Summary of the main companies that are held directly by the Company, and additional details regarding those companies (1)

	Holding rate in share capital and in voting rights	Extent of the investment in the investee company	Reserves ⁽²⁾ S millions	Total	Country of incorporation
Consolidated company	70		5 mmons		
IDB Tourism (3),(5)	100	119	26	145	Israel
Investee companies treated at equity					
IDBG ^{(4),(5)}	25.8	65	(1)	64	United States
Modi'in Energy Limited Partnership (6)	19.05	10	(2)	8	Israel
Noya Oil and Gas Explorations	47.5	1	-	1	Israel
Total		195			

- (1) The foregoing investments do not include investments in the Company's wholly-owned headquarter companies.
- (2) In the event of the realization of the investment in associate companies, or in case of realization of the investment in consolidated companies, as a result of which the Company discontinues the consolidation of their financial statements in its financial statements, these capital reserves will be reflected in profit and loss or in retained earnings.
- (3) IDB Tourism's assets and liabilities are presented under assets classified as held for sale and liabilities, which are classified as held for sale, respectively.
- (4) The holding in capital is held through a wholly-owned subsidiary company. The investment is presented under assets classified as held for sale and include the balance of the debt of a wholly owned company belonging to IDBG vis-à-vis the Company in an amount of 1.8 million Dollars. The Company's share of IDBG's net asset value as of June 30, 2020 stands at NIS 131 million.
- (5) The extent of the investment includes the investment in loans and/or capital notes.
- Modi'in's participation units are traded on the Tel Aviv Stock Exchange. The market value of the Company's holdings in Modi'in was NIS 8 million and NIS 9 million as of June 30, 2020 and August 18, 2020, respectively.

H. Discontinued operations

- Further to what is stated in Note 3.B above, the resultant impact of the Company's holdings in Clal Holdings Insurance Enterprises (primarily changes in the fair value of the investment, including through swap transactions) are presented under discontinued operations;
- Further to what is stated in Note 3.C above, the Company is evaluating alternatives in connection with the sale of shares in IDB Tourism, and therefore, is continuing to treat IDB Tourism as a discontinued operation.
- In light of the Company's activity to sell its holdings in IDBG, as stated in Note 3.D.2 above and in light of the Company's intention to continue to take action for the sale of the Company's holdings on IDBG, the Company's investment in IDBG is presented as held for sale and IDB's operations are presented as discontinued operations, with the comparative figures in respect of IDBG's operations for the first half and for the second quarter of 2019 and for the year 2019 having been restated in order to present IDBG as discontinued operations separately from continuing operations.
- 1. The following is a summary of the results of discontinued operations:

See Note 3.D.5 to the annual financial statements for details regarding the designation of the shareholders loans to fair value through profit and loss as from February 1, 2019.
- (c) The amounts include amounts of NIS 2 million, NIS 13 million, NIS 6 million and NIS 25 million in the first half of 2020, the first half of 2019, the second quarter of 2019 and the year 2019, respectively, in respect of loans from Property & Building in respect of the facility agreement that is detailed in Note 3.D.2 to the annual financial statements.
- (d) Presented under the Group's share of losses of investee companies treated at equity, net.

Note 4 – The Company's liabilities

- A. See Note 8.B to the annual financial statements for details regarding restrictions, financial covenants and grounds for calling for the immediate repayment of the Company's debentures.
- B. In connection with the financial covenants in respect of the debentures (Series N), the following are details of the results of the calculation of the financial covenants as of June 30, 2020:

Ground for the adjustment of the interest rate/ financial covenant	As of June 30, 2020
DIC's long-term issuer rating may not be lower than the base rating (ilBBB). In the event of a decrease of two or more rating levels, there will be a maximum cumulative addition of up to 0.75% to the annual interest rate that the debentures (Series N) will bear.	A rating of ilBBB with a negative rating outlook
The value of DIC's assets less its net financial debt ("The net asset value") is to be less than NIS 1.1 billion. In the event of an exception an addition of 0.25% will be added to the interest rate that the debentures (Series N) will bear.	DIC's net asset value – NIS 720 million *
The ratio between DIC's net financial debt and its asset value is to exceed 85%. In the event of an exception, an addition of 0.5% will be added to the interest rate that the debentures (Series N) will bear.	The ratio between DIC's net financial debt and its asset value – 81%*
A lien on shares in DIC in support of compliance with the commitments to the holders of the debentures (Series N).	Approximately 99.3 million shares in DIC have been charged.

- * On March 31, 2020, the Company was not in compliance with these financial covenants and accordingly, as from the time of the publication of the Company's financial statements for the first quarter of 2020, i.e. as from June 30, 2020 ("The time of the exceeding"), the debentures (Series N) bear interest at a rate of 5.75% instead of 5% as was the case up to the time of the exceeding.
 - In accordance with the results of the calculation that is set forth above, as of June 30, 2020, as from the time of the publication of the financial statements for the second quarter of 2020, i.e., as from August 20, 2020 ("The time of the correction"), the debentures (Series N) will bear interest at a rate of 5.25% instead of interest at a rate of 5.75%, as was the situation before the time of the correction. The abovementioned interest will be in effect until the full settlement of the balance of the principal of the debentures (Series N) or until the time of the publication of financial statements by DIC pursuant to which there is a change in connection with any of the financial covenants that is relevant, as detailed in the above table.
- C. See Note 3.A.3 above for details regarding the payment of interest on the debentures (Series N) out of the monies that were injected into the Company on account of interest on the debenture from Dolphin IL.
- D. The composition of the liens in support of the holders of the debentures (Series O) in January 2020 the Company transferred 617,172 shares in Clal Holdings Insurance Enterprises from the trustee (Mr. Moshe Teri) to the trustee for the debentures (Series O). Accordingly, as from that time, 3,382,243 shares are charged under a first ranking lien in support of the holders of the debentures (Series O), as is the consideration that will derive from 2,376,527 shares in Clal Holdings Insurance Enterprises, which are held by Mr. Teri.
- E. On March 17, 2020, Ma'alot announced that as a result of its assessment that there exists almost absolute certainty that the Company will reach insolvency in the immediate term, it was lowering the Company's rating to a rating of CC with a negative rating outlook. Ma'alot also lowered the rating for the debentures (Series I), which are not collateralized, to a rating of C. On July 1, 2020, after the date of the statement of financial position, Ma'alot announces that as a result of its assessment that there is very high probability of the Company's insolvency or a debt arrangement, it was ratifying the said rating (including the negative forecast).
- F. On May 19, 2020, the Company's Board of Directors approved a letter of commitment ("The letter of commitment") vis-à-vis all of the series of the Company's existing series of debentures. The following are the main points of the Company's commitments:

The giving of notification of the execution of transactions in advance:

1. As of the time of the Board of Directors' approval and up to the end of the period of the commitment, as detailed below ("The interim period"), insofar as the Company may execute the following transactions, it is to issue an immediate report 14 business days prior to their execution (or shorter notice if stated otherwise explicitly in the relevant section):

F. (Continued)

1. (Continued)

a. The execution of a disposition (as defined below) or the allocation of securities by the Company and also by any of the corporations under its control, directly or indirectly, except for Modi'in Energy Management (1992) Ltd., Modi'in and corporations under their control ("The Group" or "Group corporations").

Disposition – an action that relates to an asset or a right, including any transfer, sale, charging, granting of a right, a commitment to transfer, to sell or to charge any right, the waiver of a right, as well as any commitment to execute one of those acts and/or the granting of an option for each of those acts.

The following transactions will not be deemed to be a disposition, if they are executed opposite a third party, who is not a relative of the controlling interest in the Company, an interested party therein or their relatives ("The relevant interested parties") or in which the relevant interested parties have a personal interest.

- 1. A sale of the Company's holdings, in whole or in part, in Clal Holdings Insurance Enterprises Ltd., which is executed at any price whatsoever (a) a sale pursuant to the outline for the sale that was determined by the Commissioner of the Capital Market, and/or (b) a sale of shares in Clal Holdings Insurance Enterprises Ltd., which are charged in support of the debentures (Series O), in accordance with the restrictions that are set in the trust deed for the debentures (Series O), and/or (c) within the framework of the closing of the swap transactions that the Company has executed on shares in Clal Holdings Insurance Enterprises ("The swap transactions"). If there is anything in the execution of such transactions that releases collateral or deposits or monies that have been made available by the controlling interest as collateral for the swap transactions, the Company is to inform the trustees for the series of debentures ("The trustees"), shortly after the time of the making of the decision in the Company's authorized bodies as soon as possible after the decision is made.
- 2. A disposition that is made by IDBG and/or Israir Airlines and Tourism Ltd. and/or companies that are held by them, and solely that such disposition is not a transaction with any of the relevant interested parties and is not a transaction in which any of the relevant interested parties has a personal interest.

Despite the aforesaid, a sale of IDBG's indirect holdings in the Tivoli project will be the subject of such a duty of notification.

In addition, it should be clarified that such duty to give notification will apply in relation to the allocation of shares or securities that are convertible into shares in IDBG and/or Israir and/or their investee companies.

b. The execution of a transaction by any of the corporations in the Group (including the taking up of a liability), or a transaction or a commitment, with any of the relevant interested parties, or one in which any of the relevant interested parties has a personal interest. The aforesaid includes any amendment to charge in agreements between the Company and the relevant interested parties, and also a waiver on any right that is available to it vis-à-vis the relevant interested parties.

What is stated above in this section will not apply in relation to the transactions that are detailed below, in respect of which the Company is to report in an immediate report as the same time as their execution: (a) the extension if a rental agreement for the Group's offices (and ancillary services thereto) under identical terms to those that exist today as reported by the Company, or a change in the terms of a rental agreement in a manner that reduced the cost that the Company is to bear; (b) the renewal of existing transactions from time to time under identical terms to the terms of the existing transactions, except for insignificant changes, or a change in existing transactions in a manner that reduces the cost that the Company will bear and which does not impose any additional liability on the Group; (c) the receipt of financial services from Epsilon Underwriting and Issues Ltd. in the regular course of the Company's business, and solely that such services are provided at market terms.

- F. (Continued)
 - 1. (Continued)
 - c. The execution of any payments or considerations or benefits whatsoever, of any sort or type, in money or in money's worth, in cash or in payments, to any of the relevant interested parties (where for the purposes of this section, the relevant interested parties will not include DIC or companies under its control or which are held by it), which includes that the Company undertakes not to execute any distribution (within the definition of that term in the Companies Law.

What is stated above in this section will not apply in relation to payments and benefits in accordance with existing commitments or transactions, the nature and extent of which were detailed in Note 16 to the annual financial statements ("Existing transactions"), and solely that they are executed in accordance with the terms of the existing transactions as detailed in the same report without any change therein.

And also in relation to the renewal of existing transactions, as defined above, from time to time, under similar conditions to the existing transactions except for a change in the agreement governing the premium that is paid for the purchase of an officers' liability insurance policy and except for insignificant changes. See also Notes 5.C and 5.D. below

- d. The execution of the following transactions by the Company and any corporation under its control, except of IDBG and Israir:
 - 1. The making available or the taking up of a loan or credit. It is clarified that what is stated in this section shall not apply to the extension of an existing loan that has been received from IDB Tourism as stated in Note 3.C.3 above, and this under identical or very similar terms to the terms of the existing loan (except of the period of the loan or credit or immaterial changes).
 - 2. The execution of any payments whatsoever to any of the financial creditors (including the holders of the debentures and the banks) other than pursuant to their existing repayment schedules at the time of the signing of the letter of commitment, and they will not give agreement to any change whatsoever in the terms of the Company's existing agreements with any of their financial creditors (including debenture holders and banks).
 - 3. The acquisition of any asset or any right or the execution of an investment in existing fields of activity and/or in new fields of activity, including other than by way of the provision of a loan or credit. What is stated in this section will not apply to the following transactions: (a) a cumulative investment in existing assets in a cumulative amount for each interim period of up to NIS 2 million (whether for monetary consideration and whether in money's worth, whether for cash consideration and whether in consideration for payments; (b) the provision of a loan or credit in a cumulative amount for each interim period of up to NIS 2 million; (c) the purchase of the Company's debentures, as will be detailed below.
 - 4. The taking up of a monetary or other commitment, except for the giving of a commitment to indemnify officers in the Group and except for the taking up of a commitment in respect of administrative and general expenses, which are taken up in the regular course of business and where there is no duty to avoid it or the giving of notification in accordance with any other provision of this letter of commitment.
- e. An initiative by the Company, by itself or in through any corporation under its control (directly or indirectly), other than Modi'in Energy Management (1992) Ltd., Modi'in and corporations under its control, to institute any proceedings whatsoever vis-à-vis the Company pursuant to Section 350 of the Companies Law and/or the Insolvency and Economic Rehabilitation Law 2018. Nor is the Company to give its explicit or implicit agreement to any such process.

F. (Continued)

2. The self-purchase of debentures by the Company

Further to what is stated in Note 8.E.4 to the annual financial statements, regarding the Company's commitment vis-à-vis the holders of the debentures ("The previous commitment"), which existed at that time, on May 27, 2020, the Company's Board of Directors approved the extension of the previous commitment until August 31, 2020, instead of May 30, 2020. Pursuant to the letter of commitment, the provisions of the previous commitment will apply in the interim period, for what is stated regarding the execution of self-purchases of the Company's debentures, and the Company will issue an immediate report 10 days prior to the execution of a self-purchase of its debentures.

The main substance of the previous commitment relates to that insofar as an actual purchase of debentures is executed by the Company from any of the Company's series ("The series being settled"), and insofar as the debt vis-à-vis that series, in whole or in part, is an unsecured debt ("The purchase transaction"), then the Company is to act within 60 days of the execution of the purchase transaction ("The balancing period"), in order to purchase bonds of each of the other series of debentures, which are unsecured debts, in an extent (pari-passu) from the relevant series ("The extent of the balancing debentures") that will be equal to the liability value (pari-passu), which is purchases of the series being settled divided by the unsecured debt of the series being settled prior to the purchase transaction, multiplied by the unsecured debt of the relevant series ("The balancing transaction"), which is to be calculated at the time of the execution of the purchase transaction.

3. The Company is to discuss with representatives of the holders of the debentures (Series I and N) whether balancing payments are to be made, in any amount whatsoever, for the second series if payment has been made of principal for the other series by the end of June 2020. As of the time of the publication of the financial statements for the second quarter of 2020, the Company has not yet formulated such a position.

The termination of the commitment pursuant to this letter of commitment:

- a. The Company's commitments, as detailed above, will be cancelled vis-à-vis series of the Company's debentures (in whole or in part, as may be decided by the Company pursuant to its exclusive judgment) at the end of 14 business days from the delivery of the Company's notification to the trustee for the relevant series (or to all of the trustees, as the case may be), in writing, regarding the end of the letter of this commitment vis-à-vis that trustee.
- b. In addition, and without detracting from the provisions of Section 3.A above, the Company's commitment as detailed in this document, will be cancelled vis-à-vis series of the Company's debentures (in whole or in part), as the Company may decide in accordance with its exclusive judgment) which will be the case if and insofar as one or more of the series of the Company's debentures may institute one or more of the actions that are detailed below, where the cancellation will be effective immediately upon the delivery of the Company's notification to the trustee of the relevant series (or to all of the trustees, as the case may be) of the cancellation of the Company's commitment pursuant to this document as a result of an action that has been instituted as aforesaid:
 - 1. The passing of a resolution in a meeting of the holders of the Company's debentures (in whole or in part) regarding the institution of legal proceedings against the Company of any sort whatsoever, including making the debt to the holders of the Company's debentures (in whole or in part) repayable immediately, the exercise of collateral or any other issue with a similar substance for the said creditors.
 - 2. The institution of legal proceedings of any sort whatsoever by the trustee or the representatives of the holders of the debentures (in whole or in part) against the Company, including making including making the debentures (in whole or in part) repayable immediately or the exercise of collateral

In order to remove any doubt, it is clarified hereby that the cancellation of the Company's commitment pursuant to what is stated above in this section 3 shall not constitute and nor shall it in and of itself be deemed to be any breach whatsoever by the Company of this letter of commitment and/or of the terms of the Company's trust deeds. However, a breach of any of the commitments that are detailed in this letter of commitment will be deemed to be a breach of the commitment under the trust deeds for the Company's debentures.

G. On June 1, 2020, the Company informed the trustee for the Company's debentures (Series I) (hereinafter in this section: "The debentures" and "The trustee"), that pursuant to the provisions of Section 13(A) (1) of the trust deed for the debentures, the debentures holders are entitled to make the debentures repayable immediately if and insofar as the Company does not settle any amount whatsoever that may be due from it in connection with the debentures within 14 business days after the time at which it is due for payment. Pursuant to the Company's notification of the deferral of the timing of the payment of the interest, which was set for June 18, 2020 to June 30, 2020. The said deferral was approved by the Company's Board of Directors, however on June 7, 2020, a general meeting of the debenture holders decided not to approve the deferral. Therefore, the ex-date for the payment of the interest was set for June 8, 2020.

The trustee for the debentures has informed the Company that the debenture holders are retaining all of their rights against the Company, the Board of Directors and the controlling interests therein for themselves and that the said approval of the meeting of the debenture holders does not constitute any waiver of any right or demands vis-à-vis any of them.

On June 29, 2020, the Company announced that pursuant to a decision by its Board of Directors on June 28, 2020, the payments of the interest on the debentures (Series I), the payment of which had been deferred, as stated above, from June 18, 2020 to June 30, 2020, as well as the payments of the interest on the debentures (Series N and O), which pursuant to the trust deeds were supposed to be paid on June 30, 2020, would be deferred and would be paid on July 7, 2020. The payments were executed on July 7, 2020. Pursuant to the announcement by the trustee for the Company's debentures (Series I) on July 1, 2020, the Company offset an amount of NIS 750 thousand ("The amount of the offset") out of the total payment in respect of the settlement of interest for the holders of the debentures (Series I), which was paid at the time of the payment of the interest. The amount of the offset was transferred to the trustee. It is clarified that the amount of the offset is to be calculated for all intents and purposes as money that has been paid by the Company on account of the payment of the interest to the holders of the Company's debentures (Series I) at the time of the payment of the interest and the Company will be viewed as having fulfilled its commitment vis-à-vis the holders of the Company's debentures (Series I) in respect of the said payment of the interest.

H. Further to what is stated in Note 3.A.3 above regarding an approach by the Company to the controlling interest in the Company and the formulation of an outline, pursuant to which, inter alia, the Company will act together with the controlling interest to formulate an outline for action in connection with the Company's financial position and for the purpose of the continuation of the servicing of its commitments, on June 2, 2020, the Company received a draft proposal from Dolphin IL for the Company and for the trustees for the Company's debentures (Series I, N and O) for the strengthening of the Company's capital structure, by way of an arrangement ("The arrangement") between Dolphin, the Company and the debenture holders, based on an economic contribution to the Company on Dolphin IL's part, together with a full or partial (as the case may be) redemption of the generality of the Company's debentures. On June 21, 2020, the Company received an update proposal in relation to the abovementioned proposal and on June 28, 2020, Dolphin IL approached each of the trustees for the debentures with a request to put the said proposal, with slight amendments, on the agenda of meetings of the debenture holders. Dolphin's proposal, after the said amendments and after adjustments deriving from the closing of the swap transactions, as stated in Notes 3.B.2 and 3.B.3 above, will hereinafter be called "The controlling interest's proposal", and its main points will be detailed below.

In the controlling interest's proposal, Dolphin IL clarified that its substance was intended to improve the Company's capital structure alone and that Dolphin IL intends to cooperate with the relevant parties in order to progress a real arrangement, which will be agreeable to the holders of the debentures of the series that will agree to progress the arrangement that is proposed on the basis of the controlling interest's proposal, the main points of which will be detailed below. Upon the completion of the arrangement pursuant to the controlling interest's offer:

(1) The debentures (Series O) – the amount of the principal that is repayable in the course of the year 2020 ("The 2020 principal") will be settled from the resourced that will be created for the Company as the result of the sale of shares in Clal Holdings Insurance Enterprises, which are held by the trustee (approximately 3.5%), the consideration from which is charged in support of the holders of the debentures (Series O) and also from the surplus in an amount of NIS 40 million, which arose within the framework of the closure of the swap transactions, which may remain after the payments that have been paid and that may be paid in respect of the swap transactions in June and July 2020, as stated in Notes 3.B.2 and 3.B.3 above ("The sources for the payment of the 2020 principal")

H. (Continued)

(1) (Continued)

For this purpose, the Company will act until the time of the completion of the arrangement and at its discretion in order to realize shares in Clal Holdings Insurance Enterprises that are held by the trustee. Dolphin IL clarified in the controlling interest's proposal that if the resources for the payment of the 2020 principal will be higher than the 2020 principal (NIS 118 million) then it will use the balance of the resourced for the payment of the 2020 principal, which are in excess of the 2020 principal, for the early repayment of an additional part of the debentures (Series O) (in order to remove any doubt – without an early repayment fine or commission of any sort whatsoever), which will be done up to the level of such a balance.

The repayment schedule for the balance of the debentures (Series O), and in the event that the amounts that are received from the resources for the payment of the 2020 principal will be less than the amounts that are required for the payment of the 2020 principal, then the part of the 2020 principal that it will not be possible to pay from the resources for the payment of the 2020 principal ("The balance of the debt") will be updated as follows:

10% of the amount of the balance of the debt will be settled on December 31, 2023, 10% % of the amount of the balance of the debt will be settled on December 21, 2024 and 80% % of the amount of the balance of the debt will be settled on December 31, 2025. The debentures (Series O) will bear interest at a fixed rate of 3.5% in respect of the period starting at the time of the completion of the arrangement and until December 31, 2022 and interest at a fixed rate of 5% in respect of the period from January 1, 2023 and until the time of their final repayment. Dolphin IL will be a guarantor for the payments of the denoted interest on the debentures, which in accordance with the updated repayment schedule are payable in 2021 – 2022.

Against all of the abovementioned considerations, the holders of the debentures (Series O) will give a final and absolute waiver of all of their claims vis-à-vis the Company, Dolphin IL or any of their shareholders or their officers, the grounds for which are events that occurred up to the time of the arrangement.

- (2) The debentures (Series N) at the time of the completion of the arrangement, the Company will pay an amount NIS 300 million as a partial early repayment to the holders of the debentures (Series N). The partial early repayment will be without an early repayment fine or commission of any sort whatsoever. Close to the time of the completion of the arrangement, the trust deed for the debentures (Series N) will be amended in relation to the repayment schedule and in relation to the interest rate that they will bear, such that the repayment schedule of the debentures (Series N) and the interest rate that they will bear will be as detailed in Section B above in relation to the updated repayment schedule for the debentures (Series O) and the updated interest rate that they will bear. Against all of the abovementioned considerations, the holders of the debentures (Series N) will make a final and absolute waiver of all of their claims against the Company, Dolphin IL or any of their shareholders or their officers, the grounds for which are events that have occurred up to the time of the arrangement.
- (3) The debentures (Series I) the following assets will be used for the purpose of the payment and the final settlement of the debentures (Series I) ("The Series I assets"): (a) all of the Company's holdings in Modi'in, which will be distributed to the holders of the debentures (Series I) by way of a distribution in kind; (b) all of the Company's holdings in IDB Tourism, which holds 100% of Israir; (c) shares in DIC, which are held by Dolphin IL, which are not charged under a first ranking lien in support of the holders of the debentures (Series N), which constitute approximately 12% of DIC's share capital, in a state in which they are clean and free of a lien; (d) in addition, the Company's debentures (Series I), which are held by Dolphin IL, will be released from a lien at the time of the completion of the arrangement (insofar as they are charged), and will be transferred by Dolphin IL to the Company as an additional contribution by a shareholder, and will be delisted from trading and will be cancelled by the Company;

In addition to the aforesaid, against a waiver of the right to receive payments of interest up to the time of the completion of the arrangement and the final repayment of the debentures (Series I), the holders of the debentures (Series I) will be entitled to received 50% of the shares that are held by the Company in IDBG, or regrettably, insofar as the Company may sell the shares in IDBG that it holds by the time of the completion of the arrangement, the holders of the debentures will be entitled to receive 50% of the consideration that may be received actually by the Company for the sale of IDBG:

H. (Continued)

(3) (Continued)

Shortly after the time of the approval of the arrangement, the Company will make a distribution in kind of the Series I assets that are listed for traded on the Stock Exchange ("The marketable assets") and solely that insofar as it will not possible to execute the distribution of the marketable securities in kind, the Company will realize the marketable assets and will transfer the (net) consideration to the holders of the debentures (Series I). The marketable assets, which will be distributed in kind and/or the net consideration from their realization will be transferred to the holders of the debentures (Series I).

The Company will take action to realize the Debenture I assets that are not marketable assets, or in accordance with the exercise of its judgment, to list them for trading for the purpose of their distribution in kind to the holders of the debentures (Series I).

In the event that there may remain Series I assets that have not been realized and which are not marketable ("The remaining assets"), the remaining assets will be transferred to a trustee who will be appointed on behalf of the holders of the debentures (Series I) for the purpose of their sale.

The Series I assets and they alone will serve for the purpose of the full and final settlement of the Company's liabilities towards the holders of the debentures (Series I). The balance of the Company's debt opposite the holders of the debentures (Series I) (insofar as any may remain) will be cancelled. Upon the completion of the arrangement, the debentures (Series I) will be delisted from trading, and upon the completion of the realization or the distribution in kind of the Series I assets or the transfer of the remaining assets into the trustee's name, the existing trust deeds in respect of the existing debentures and all of the Company's commitments thereunder and/or in connection therewith will be cancelled immediately and automatically.

The Series I assets will also be used for the purpose of the settlement of the Company's liability vis-à-vis other unsecured creditors (other than under the force of the holdings of the Company's debentures) and who are not creditors in respect of the Company's routine operating activities (such as suppliers and providers of services ("The operational creditors"), insofar as there may be any at the determining time for the completion of the proposal, pro-rata to the level of the Company's liability vis-à-vis the holders of the debentures (Series I).

Pursuant to what is stated in the controlling interest's proposal and in accordance with its terms, Dolphin IL's contribution to the execution of the arrangement will include:

- (1) Dolphin IL will act, whether by way of the injection of capital into the Company and/or by making collateral available in support of the recruitment of debt by the Company and/or in any other way in accordance with the exercise of its judgment and as may be agreed with the holders of the Company's debentures and this will be detailed within the framework of the final arrangement documents, in a manner that will ensure that the Company will be able to settle an amount of NIS 300 million out of the Company's denoted debt to the holders of the debentures (Series N) as a [atrial early repayment ("Dolphin IL's contribution") as detailed above;
- (2) Dolphin IL will inject an additional amount of NIS 10 million into the Company for the purpose of the settlement of the Company's existing debts to DIC in respect of services that DIC provides to the Company, as detailed in Note 16.B.2 to the annual financial statements.
- (3) Dolphin IL will guarantee the payments of the denoted interest for the holders of the debentures of the new series, which will be issued to the holders of the debentures (Series N and Series O) and whose payment time in accordance with the repayment schedules is in the years 2021 2022;
- (4) The making available of a banking guarantee Dolphin IL will make a banking guarantee in an amount of NIS 70 million available in support of the trustees for the Company's debentures (the share of each series of debentures in the banking guarantee will be calculated in accordance with the market value of each series of the debentures at the time of the notification of the forfeiture of the guarantee, proportionately in accordance with the market value of each of the series of debentures on the day on which the banking guarantee is issued, within 7 days from the day on which an indicative approval (as defined above in this note) is given by each of the series of debentures for the purpose of collateralizing Dolphin IL's contribution ("The banking guarantee").

H. (Continued)

(4) (Continued)

The banking guarantee will be forfeitable after a decision is made to forfeit the guarantee by the holders of all of the Company's series of debentures, and solely and exclusively in respect of a breach of Dolphin IL's commitments pursuant to this proposal and the arrangement documents and it will constitute the sole collateral for the performance of the proposal by Dolphin II and beyond the banking guarantee, the holders of the debentures and/or anyone acting on their behalf shall not have any complaint or claim in relation to the non-compliance with Dolphin IL's commitments up to the time of the completion of the arrangement. The banking guarantee will expire immediately and without Dolphin IL being required to do any act in connection with this when the proposal expires, as detailed in section (7) below of this note;

- (5) Dolphin IL's contribution replaces and cancels fully and finally the balance of Dolphin Netherland's commitments of August 31, 2019 to execute an injection of equity into the Company "Dolphin's commitment". See Note 6.B below for details;
- (6) So long as the proposal has not expired, for any reason whatsoever, but it has not yet been completed, Dolphin's commitment will remain in effect, pursuant to its terms, but the banking guarantees that have been made available as aforesaid will be viewed as the fulfillment of Dolphin Netherlands' commitment pursuant to Dolphin's commitment, for the making available of an amount of NIS 70 million on September 2, 2020, and there will be nothing in the aforesaid that detracts from any of Dolphin IL's other commitments;
- (7) In order to remove any doubt, apart from the banking guarantee, as aforesaid, the proposal is non-recourse and none of the series of debentures will be entitled to raise any complaint and/or demand and/or claim against the Company and/or the proposer and/or the controlling interests and/or anyone acting on behalf of any of these in connection with the proposal, except as detailed in the proposal.

Pursuant to the controlling interest's proposal, the following provisions will apply within the course of the interim period, as defined in section 4 above:

- (1) The Company will settle the interest payments for the series of debentures whose settlement time will occur in the interim period, properly and on time, and except for the interest payments for the debentures (Series I);
- (2) The Company will be entitled to realize the shares in Clal Holdings Insurance Enterprises, which are held by the trustee, to realize the swap transactions and also to execute any other transactions that is required for the purpose of performing the arrangement.
- (3) If the Company does not settle the payments of the principal for the series of debentures whose settlement time occurs in the interim period, the series of debentures will not have any complaint or claim vis-à-vis the Company, Dolphin IL and/or the controlling interest in Dolphin IL and/or anyone acting on their behalf, including a complaint that the non-payment constitutes a breach of the terms of the trust deed and/or any assumption or evidence whatsoever of the Company's insolvency and/or any claim or demand for the payment of arrears interest in respect of the non-payment of the principal, as aforesaid.
- (4) Dolphin IL will be given exclusivity in relation to the proposal. The holders and/or the representatives and/or the trustees for the series of debentures will conduct negotiations with Dolphin IL in respect of the proposal and they will not initiate and will not negotiate with any other party in the interim period regarding the proposal, including in connection with an alternative debt arrangement opposite the Company or in connection with the realization and/or sale of the charged shares in DIC.

In the event that despite the aforesaid, in the course of the interim period the holders of the Company's debentures and/or the holders of any series whatsoever receive a proposal from a third party other than Dolphin IL and/or any agreement whatsoever instead of the arrangement that is the subject of this proposal or part thereof ("An alternative arrangement"), then they are to reject any such arrangement in advance, and it is not to be presented for voting in a meeting of the holders of the debentures.

H. (Continued)

Pursuant to the draft proposal, the following provisions will apply within the course of the interim period, as defined in section 4 above (Continued)

- (5) No petition will be submitted for calling for immediate repayment or a petition for the exercise of collateral or a petition for the opening of insolvency proceedings against the Company or a petition for the institution of legal proceedings of any sort whatsoever (including a petition pursuant to the Insolvency and Economic Rehabilitation Law) against the Company and/or officers therein and/or the controlling interest and/or anyone acting on their behalf;
- (6) The Company's commitments vis-à-vis the holders of the debentures, dated August 15, 2019, August 31, 2019, November 16, 2019, May 18, 2020 and May 31, 2020, will remain in effect during the interim period. (See Note 4.1 above and Note 8.E.4 to the annual financial for details). In order to remove any doubt, there is nothing in these commitments that prevents the Company from taking action to complete the sale of its holdings in IDBG or to list IDBG's shares or Israir's shares for trading and/or executing any action that is required for the performance and the completion of the arrangement;
- (7) The Company's series of debentures will continue to be traded in the interim period, at least until the approval of the arrangement;
- (8) The Company will continued to conduct its operations and its business routinely, which includes that it will settle its debts to the operational creditors on time.
- (9) Taking note of the value of the Company's assets and its holdings, and as necessary, the Company is entitled to inject monies into its subsidiary companies (this is without detracting from the Company's commitments as detailed in section (6) above). The amounts that may be injected into the subsidiary companies will be taken into account, and if necessary will be offset from the amounts that will be paid to the series of debentures, as aforesaid, such that a balance will be maintained between the series of the debentures pursuant to this proposal.

Pursuant to what is detailed in the controlling interest's proposal, by July 6 2020, the trustees for the holders or each of the series of debentures are to present the proposal for a vote by the debenture holders, for the making of an indicative decision for the approval of the proposal in its entirety and without any qualifications and to conduct negotiations with Dolphin IL and with the Company for the purpose of the formulation of an agreed, detailed and final proposal ("The indicative approval"), and thereafter additional actions will be taken in accordance with the timings that have been set forth in the proposal in order to promote the final approval of the proposal.

Within 5 days from the time of the second approval, Dolphin IL, together with the Company, and with the agreement of the trustees of all of the series of the debentures, will submit an agreed petition to the Court for the approval of the proposal pursuant to the provisions of Part J of the Insolvency and Economic Rehabilitation Law ("The timing of the submission of the petition"). In parallel to the submission of the petition, the trustee will submit a petition for the appointment of an expert to examine the debt arrangement. Within 30 days of the submission of the petition, a peremptory and final approval, which cannot be appealed, for the execution of the proposal is to be received from the Court ("The final approval").

The approval of the proposal will be considered to be on the day on which the absolute and final approval, which cannot be appealed, for the execution of the proposal is given by the Court ("The approval of the proposal"). Upon the approval of the proposal, the Company and the trustees for the debentures will take action in order to complete the execution of the proposal and the execution of all of the actions that are required, as will be detailed in the final arrangement and as stated in this outline. It is clarified that this proposal constitutes a single arrangement and the execution of each of its parts is conditional upon the execution of all of the other parts of the proposal.

At the time of the completion, an exemption for the Company, for Dolphin IL and for the controlling interests therein, for everyone acting on their behalf and for the directors and management of the Company, Dolphin IL and the controlling interests therein, from claims in relation to any indebtedness, liability, complaint, demand or claim that preceded the time of the completion of the execution of the proposal will enter force.

The proposal and every commitment under the force of it will expire immediately, in the cases that have been set forth in the proposal, which will be in accordance with the exercise of Dolphin IL's exclusive judgment, including:

H. (Continued)

- (a) Non-compliance with the timings, which have been set in the proposal, inter alia in relation to the timing of the receipt of the indicative approval of the holders of the debentures to the proposal, as aforesaid;
- (b) If a decision has been made by the holders of any series of debentures whatsoever, or if a petition has been submitted in the interim period for making the Company's debts repayable immediately or a petition for the opening of insolvency proceedings or a petition for the institution of legal proceedings of any sort whatsoever in relation to the Company (including a petition pursuant to Part J of the Insolvency and Economic Rehabilitation Law (against the Company and/or the controlling interest and/or anyone acting on their behalf);
- (c) If any of the meetings of the series of the series of debentures or any of the representatives of one of the series of debentures or one of the trustees of any of the series of debentures or anyone acting on their behalf opens negotiations during the course of the interim period, with any third party whatsoever on any matter that relates to this proposal, including in connection with an alternative arrangement, or in connection with the realization and/or sale of any of the Company's assets whatsoever, including the shares in DIC that are charged;
- (d) If an insolvency order is awarded against the Company, as stated in Section C of the Insolvency and Economic Rehabilitation Law, 5778 2018;
- (e) If a receiver, trustee, special administrator or any officer of that type has been appointed for the Company (whether temporary or permanent) or if a similar order has been awarded for the Company's insolvency by the Court.

Upon the expiry of the controlling interest's proposal, the guarantee for the purpose of collateralizing Dolphin IL's contribution will expire immediately, and all this without the holders of the debentures having any complaint, demand or claim against Dolphin IL or the Company in relation to the proposal or the expiry thereof and/or in relation to the guarantee for the purpose of collateralizing Dolphin IL's contribution.

As mentioned in the proposal, the outline proposal is intended to present the main conditions for the execution of the proposal and it does not bind Dolphin IL and/or the Company, except for the commitment for a guarantee, which will enter force pursuant to what is stated above. It is clarified that the proposal is conditional upon the signing of a binding agreement between the parties and the receipt of all of the approvals that are required pursuant to the law for the purpose of its execution, including the approval of the authorized bodies in the Company.

It should be mentioned that in accordance with the events that are set forth above, in respect of which the controlling interest's proposal will expire if they occur, no indicative approval was received by July 6, 2020. However, pursuant to the terms of the controlling interest's proposal, the expiry of the proposal, as aforesaid shall be at the exclusive discretion of Dolphin IL and as of this time, no notification has been received by the Company from Dolphin IL on this matter.

On July 6, 2020, a meeting of the debenture holders (Series I) decided to instruct the trustee not to accept the controlling interest's proposal.

On July 7, 2020, a meeting of the debenture holders (Series N) decided to hold negotiations for a fixed period of one month in connection with the controlling interest's proposal and on July 8, 2020, a meeting of the debenture holders (Series O) made a similar decision.

Events after the date of the statement of financial position

I. On July 3, 2020, Dolphin Netherlands and the controlling interest therein, Mr. Eduardo Elsztain (who confirmed to Dolphin Netherlands his agreement to the giving of such commitment in his name ("The controlling interests in the Company"), vis-à-vis the generality of the debenture holders in the Company that during the course of the period of the commitment (as defined below), none of the following transactions will be executed and/or initiated and/or promoted and that subject to the provisions of the law, the power of control in corporations that are controlled by the controlling interest in the Company will not be operated in order to promote any of the following transactions, unless notification has been delivered in writing to the trustees for the abovementioned debentures by IDB Development at least 14 business days in advance ("Notification in advance") (for this purposes: "Business day" means Sunday to Friday (inclusive) except for national holidays, festivals and the eves of festivals):

Events after the date of the statement of financial position (Continued)

- I. (Continued)
 - 1. No transaction or commitment may be executed, whether directly or indirectly, between the controlling interests in the Company or any corporation under their control and DIC or any of the corporations that are directly or indirectly under DIC's control (together: "The DIC Group") and that no transaction or commitment will be executed by any of the corporations in the DIC Group, in which the controlling interests in the Company or any corporation under their control have a personal interest in the transaction (and this includes that no correction or change will be made in existing transactions of such a sort), the subject matter of which is: (1) The purchase and/or sale of a significant asset and/or (2) The taking up/ making available of a loan to the DIC Group or from the DIC Group in a significant amount, as the case may be and/or (3) A significant transaction or some other exceptional transaction.
 - 2. For this purpose, "The period of the commitment" means: a period of time that commenced on July 3, 2020 and ending as detailed below:
 - a. The controlling interests' commitments, as described above will be cancelled vis-à-vis series of the Company's debentures (in whole or in part, as may be decided by the controlling interests in the Company in accordance with their exclusive judgment) at the end of a period of 14 business days from the time of the delivery of written notification of this from the controlling interests to the Company and to the trustees for the debentures ("Notification of termination").
 - b. In addition and without detracting from the provisions of Section A above, the controlling interests in the Company's commitment will be cancelled vis-à-vis series of the Company's debentures (in whole or in part, as may be decided by Dolphin Netherlands B.V. in accordance with their exclusive judgment) and this if and insofar as one or more of the series of the Company's debentures may institute one or more of the activities that are set forth below, a cancellation that that will enter force automatically upon the occurrence of any of the activities that are set forth below and without the need for any action whatsoever to be taken by the controlling interests in the Company other than notification in writing to the trustees on the cancellation of the letter of commitment (however this is without detracting from the period of 14 business days notification in advance, insofar as such notification has been delivered prior to the cancellation of this letter of commitment, in a manner that no activity that is enumerated in the abovementioned activities will be executed prior to the passage of 14 business days from the time of the delivery of the advance notification:
 - 1. The passing of a resolution in a meeting of the holders of the Company's debentures (in whole or in part) regarding the institution of legal proceedings against the Company of any sort whatsoever, including and without detracting from the generality of the aforesaid, calling for the immediate repayment of the debt to the holders of the Company's debentures (in whole or in part), the exercise of collateral, the submission of a petition for the opening of insolvency proceedings or any other issue that is similar in its substance to the said issues.
 - 2. The institution of legal proceedings against the Company of any sort whatsoever, by the trustee or the representation of the holders of the debentures (in whole or in part) against the Company, including and without detracting from the generality of the aforesaid, calling for the immediate repayment of the debentures (in whole or in part), the exercise of collateral, the submission of a petition for the opening of insolvency proceedings or any other issue that is similar in its substance to the said issues.
 - 3. In order to remove any doubt, it is clarified that the cancellation of the controlling interests in the Company's commitments pursuant to the aforesaid, shall not constitute and shall not be considered, in and of itself, as any breach whatsoever on the part of the controlling interests in the Company or the Company of this letter of commitment and/or of the terms of the Company's trust deeds and debentures and in and of itself it shall not give rise to any claim against the controlling interests in the Company for the holders of the debentures of the series.

Events after the date of the statement of financial position (Continued)

- I. (Continued)
 - 3. The controlling interests emphasized that the commitments that are set forth above are provided beyond what is strictly required pursuant to the letter of the law, and not out of a duty that applies to the controlling interests in the Company pursuant to the provisions of the law and/or the trust deeds and there is nothing in what is stated above that imposes any duty on the controlling interests and/or that affords the holders of the Company's debentures any right beyond what is stated explicitly above in this letter. There is nothing in this letter that detracts from any right of any sort and type that exists for the trustees for the debentures and for the holders of the debentures of Series I, N and O of the Company, including pursuant to any law and agreement, and all this pursuant to the trust deeds.
- J. <u>Decisions made by meetings of the Company's debenture holders:</u>
 - On August 13, 2020, a general meeting of the holders of the debentures (Series N) decided to instruct the trustee to call a meeting of the holders of the debentures for September 18, 2020, on the agenda of which there is to be the calling for the immediate repayment of the debentures (Series N).
 - On August 18, 2020, a meeting of the holders of the debentures (Series O), decided to instruct the trustee not to call a meeting of the holders of the debentures (Series O) for the purpose of making a decision regarding calling for the immediate repayment of the debentures (Series O) for the ground for immediate repayment, which they claim exist, as of the time of the calling of the meeting and/or grounds that may exist after the time of the calling of the meeting, and this until December 1, 2020.

Note 5 – Additional events in the reporting period

- A. On April 12, 2020, Mr. Eran Saar announced his resignation from his position as the Company's Chief Executive, effective from the time of the announcement.
- B. On April 21, 2020, Mr. Aaron Kaufman was appointed to serve as the Company's Chief Executive Officer.
- C. Further to what is stated in Note 16.B.2 to the annual financial statements, regarding a cost allocation agreement (service agreement), on June 25 and 29, 2020, the Company's Audit Committee and Board of Directors, respectively, approved an update to the Company's commitment with DIC under regarding a cost allocation agreement (service agreement), for a period of 3 years, effective as from July 1, 2020 and until June 30, 2023 ("The updated services agreement")
 - Within the framework of the updated services agreement, inter alia, it was determined that instead of a cost allocation ratio for the common services (as defined in the said note), which is determined in the agreement, pursuant to which DIC bears 60% of the cost of the remuneration for the service providers (as defined in that note), and the Company bears 40% of that cost, and the mechanism that was set therein for an annual testing of the allocation ratio, DIC will make the common services available to IDB Development to an extent not exceeding 20% of a full time position (weighted annual and in relation to all of the service providers) and in relation to Mr. Kaufman, who serves as the Company's Chief Executive Officer ("The Company's CEO"), since April 21, 2020 and as VP and Internal Legal Counsel in DIC, the extent of his position will be divided equally between the parties (50% 50%) ("The new services allocation ratio").

In consideration for the performance of the common works and the new services allocation ratio pursuant to the updated services agreement, the Company will pay DIC a fixed annual payment of NIS 3.3 million in respect of the first year (i.e. from July 1, 2020 to June 30, 2021) and an amount of NIS 2.5 million as from the end of the first year, as aforesaid (with the addition of VAT).

In addition, within the framework of the updated services agreement, it has been clarified that the Company will have exclusive discretion regarding Mr. Kaufman's role in IDB Development Corporation and in the determination of his remuneration in his role as IDB Development Corporation's CEO, and solely that there be nothing in the said roles that impairs his ability to continue to serve in his position in DIC at the extent of at least 50% of a full time position, and for the sake of caution, such remuneration may not exceed DIC's remuneration policy.

Note 5 – Additional events in the reporting period (Continued)

C. (Continued)

It is further clarified that in the event that the Company may decide to reduce the cost of the remuneration in respect of his role as the Company's CEO (in relation to 50% of the cost of his employment, as it may be at that time ("The determining cost), no change whatsoever will apply to the extent of the consideration and insofar as the Company may decide to update the cost of his remuneration upwards, the Company will bear the full difference compared to the determining cost.

Furthermore, further to the mechanism that is set in the agreement for the division of the uses and office expenses, as described in Note 16.B.(2) to the annual financial statements, the ratio of the allocation of the costs between the Company and DIC has been updated such that for the costs that are arranged within the framework of the said agreement, the Company will bear an annual cost of NIS 700 thousand (with the addition of VAT) for the first year (from July 1, 2020) and NIS 500 thousand (with the addition of VAT) as from the second year and thereafter.

The commitment pursuant to the updated services agreement and the updating of the allocation of uses and office expenses agreement have been approved by the Company's general meeting (following the approval of the Company's Board of Directors) and in August 2020, after the date of the statement of financial position, it was also approved by DIC's general meeting (with a majority from among the public).

D. Further to what is stated in Note 16.B.(1) and (2) to the annual financial statements and further to what is stated in Section C above, regarding an agreement for the division of the uses and office expenses and an agreement for the distribution of costs (services agreement), the balance of the Company's current debt to DIC in respect of services that it has provided to the Company stood at NIS 10 million and NIS 11 million as at June 30, 2020 and at a time shortly before the time of the publication of the financial statements, respectively.

Note 6 - Subordinated convertible loans from the controlling interest

A. The following are the amounts of the subordinated loans that have been provided by the controlling interest

Year	Amount in NIS Millions	Additional Details	
2015	210	Note 7.C.1 to the annual financial statements	
2016	348	Note 7.C.1 to the annual financial statements	
2019	70	Note 7.C.2 to the annual financial statements	

B. See Note 7.C.2 to the annual financial statements for details regarding Dolphin Netherlands' commitment to execute an injection of equity into the Company in an overall amount of NIS 210 million in three equal annual tranches of NIS 70 million each, on September 2 in each of the years 2019 to 2021. The first injection was executed on September 3, 2019.

See also Note 11.G below regarding a letter that the Company has received from Dolphin Netherlands after the date of the statement of financial position, and regarding the Company's response to the said letter.

Note 6 - Subordinated convertible loans from the controlling interest (Continued)

C. The indication of the Company's equity value as of June 30, 2020, which is based on the market value of the Company's assets and liabilities, is negative. Accordingly, as of June 30, 2020, the total value of the subordinated loans, which are described in Note 7.C to the annual financial statements, has been assessed by an independent external appraiser at an amount of NIS 0 million.

Then following are the changes in the fair value:

	Financing	Other	
	income	comprehensive	
D : 1	(expense)*	income (loss) **	
Period		millions	Explanation C. I.
Six months ended June 30, 2020	1	24	The financing income derived from the decrease in the value of the subordinated loans, which resulted from market changes, by comparison with the calculation that was made as of December 31, 2019, with parameters that reflect the same credit risk for the Company. The decrease in the value of the subordinated loans is attributed to the change in the Company's credit risk, and is presented under other comprehensive income.
Six months ended June 30, 2019	96	210	The financing expense derived from a decrease in the value of the subordinated loans, which was resulted from market changes compared to the calculation that was prepared as of December 31, 2018, with parameters that reflect the same credit risk for the Company. The decrease derived primarily from a decrease in the value of Clal Holdings Insurance Enterprises, and in the value of the debenture from Dolphin IL. The balance of the decrease in the value of the subordinated loans is attributed to a change in the Company's credit risk, and it is presented under other comprehensive income
Three months ended June 30, 2020	-	-	No change has occurred in the value of the subordinated loans in the second quarter of 2020
Three months ended June 30, 2019	-	(43)	The entire change in the value of the subordinated loans in the second quarter of 2019 is attributed to an increase in the Company's credit risk.
The year 2019	101	409	The financing income was derived from the decrease in the value of the subordinated loans, which resulted from market changes, by comparison with the calculation that was made as of December 31, 2018, with parameters that reflect the Company's credit risk ("The calculation"). In relation to the injection in September 2019 (see Note 6.C.2 to the annual financial statements, the calculation was prepared with parameters that reflect the Company's credit risk at the time of the injection. The decrease derives primarily from a decrease in the value of the holdings in Clal Holdings Insurance Enterprises and in the value of the debenture from Dolphin IL. The balance of the decrease in the value of the subordinated loans, in excess of the decrease pursuant to the calculation, is attributed to changes in the Company's credit risk and it is presented under other comprehensive income.

^{*} In the statement of income.

See Note 7.B. below for additional details.

Pursuant to Regulation 49(a) of the Reports Regulations, an economic paper regarding the fair value of the subordinated loans as of June 30, 2020, is attached to these financial statements.

^{**} In the statement of other comprehensive income, under the item for net change in the fair value of subordinated loans.

Note 7 - Financial Instruments

A. Fair value of financial instruments for disclosure purposes only

The carrying value of certain financial assets and liabilities, including cash and cash equivalents, other receivables, deposits, other investments, derivatives, liabilities to banks in connection with swap transactions and other payables, correspond to or approximate their fair value.

The fair value of the other financial assets and liabilities, and their carrying values, as presented in the statement of financial position, are as follows:

	As of June 30, 2020		As June 30		As of December 31, 2019

⁽¹⁾ The fair value of the debenture from Dolphin IL was determined by an external appraiser using the correlative Monte Carlo model. The Monte Carlo model is an algorithmic model which is used to solve calculation problems by running stochastic parameters through a large number of global situations and performing calculations on the various scenarios which were obtained. For the purpose of calculating the various scenarios, simulations were prepared regarding the future value of DIC's holdings (as of March 31, 2020 – the value of shares in DIC), and the fair value of the Company's holdings, in order to assess the ability to actually repay the debenture and the impact of these values on insolvency situations, both of the Company and of the buyer. Use was also made of the Merton model, in order to estimate the future value of the debenture at different dates and in different scenarios, in order to assess natural situations of early repayment, both on the part of the Buyer, and on the part of the Company. See Note 3.A. to the annual financial statements for additional details regarding the debenture and the terms thereof.

⁽²⁾ See Note 3.F above and Note 3.F to the annual financial statements for details.

⁽³⁾ Carrying value including current maturities and accrued interest.

⁽⁴⁾ The fair value of debentures traded on the stock exchange was estimated based on their quoted price, and the interest rate in respect of them reflects the yield to maturity embodied in the aforementioned quoted price. The fair value as of June 30, 2020 includes the amounts were actually been paid on July 7, 2020 (see Note 4.G above for details), the ex-day for which was on June 30, 2020.

⁽⁵⁾ The convertible subordinated loans are presented in the Company's books at fair value. The fair value of the aforementioned loans was determined by an external appraiser based on a calculation used to estimate indications of the value of the Company's equity.

⁽⁶⁾ Relates to a swap transaction on shares in Clal Holdings Insurance Enterprises, which were sold by Bank Hapoalim in November 2018. See Notes 3.B.2 3.B.3 above for details.

F

Note 7 - Financial Instruments (Continued)

3. Fair value hierarchy of financial instruments measured at fair value

The various levels were defined in the following manner:

- Level 1 Quoted (non-adjusted) prices in an active market for identical instruments.
- Level 2 Directly or indirectly observable data, which are not included in Level 1 above.
- Level 3 Data which are not based on observable market data.

The fair value of financial assets measured at fair value is determined with reference to their quoted closing bid price as of the date of the statement of financial position, and in the absence of such a quoted price - using other conventionally accepted valuation methods, in consideration of the majority of observable market inputs (such as use of the interest curve).

Financial instruments measured at fair value level 2

	As of June 30, 2020	As of June 30, 2019	As of December 31, 2019
	(Unaudited)	(Unaudited)	(Audited)
		NIS millions	
Financial liabilities	(48)	* (81)	(32)

^{*} Includes NIS 72 million in respect of an option that has been given to a third party for the acquisition of approximately 5% of the shares in Clal Holdings Insurance Enterprises.

Financial instruments measured at fair value level 3

The rest of the Group's financial instruments are measured at fair value level 1, except as detailed in the following tables:

For the six months anded June 20, 2020

	For the six months ended June 30, 2020

^{*} For the purpose of the valuation, a synthetic normative asset (sum of parts) was used at these times, based on the value of DIC's various holdings.

B. Fair value hierarchy of financial instruments measured at fair value (Continued)

Fair value sensitivity analysis in respect of financial instruments measured at fair value level 3 (Continued)

• In respect of the fair value measurement of the subordinated loans from the controlling interest, a possible and reasonable change in each of the following non-observable inputs would have increased (decrease) profit and loss, and capital, as follows:

	113 01 0 une 50, 2015				
		nct on capital		act on or loss*	
	Increase Decrease of of				
	(Unaudited)				
	NIS millions				
Absolute change of 10% in estimated indications of the					
Company's equity value	(22)	22	(22)	22	
Absolute change of 5% in the fire sale factor in respect of assets	55	(55)	55	(55)	
Absolute change of 2.5% in the discount rate in respect of block	7	(7)	7	(7)	

As of June 30, 2019

As of December 31, 2019

	115 01 Becember 01, 2015				
		act on capital	Impa Profit	ct on or loss*	
	Increase of	Decrease of	Increase of	Decrease of	
	(Audited)				
	NIS millions				
Absolute change of 10% in estimated indications of the					
Company's equity value	(3)	3	(3)	3	
Absolute change of 5% in the fire sale factor in respect of assets	25	(41)	25	(41)	
Absolute change of 2.5% in the discount rate in respect of block	5	(5)	5	(5)	

^{*} The above data are based on the assumption that the changes derived from market changes, and not from changes in the Company's credit risk. Pursuant to the provisions of IFRS 9, if the changes were to derive from changes in the Company's credit risk, such changes would be reflected under other comprehensive income.

The fair value of the convertible subordinated loans, based on indications of the equity value of the Company's shares, is

negative in a significant amount as of June 30, 2020 and therefore changes as detailed in the above tables would not alter

• The possible effect as a result of a reasonable change in the non-observed data is immaterial in relation to other financial instruments, which are classified at level 3 of the fair value hierarchy.

the value of the subordinated loans as of June 30, 2020 by an amount of NIS 0 million.

Note 9 - Contingencies

Lawsuit against the Company

Further to what is stated in Note 12.B(1) to the annual financial statements regarding proceedings for a petition for the disclosure of documentation that was submitted in January 2019, in July 2020, after the date of the statement of financial position, the parties in the proceedings submitted a joint announcement that they had succeeded in reaching an arrangement, which renders the clarification and the deciding of the petition for disclosure and review of documents pursuant to Section 198A of the Companies Law, 5759 -1999, redundant.

On July 29, 2020, a ruling was handed down, pursuant to which, in brief and inter alia, the parties' agreement was approved and it was given the validity of a ruling.

Note 10 - Operating Segments

The Company views those companies, which constitute a significant economic component for the Company, including for the purpose of the allocation of resources as segments ("The segment companies"). The basis for allocation to segments and the basis for the measurement of the segmental separation segmental profit and loss is identical to that which is presented in Note 17 to the annual financial statements regarding operating segments, The following are details in respect of the operating segments and a reconciliation between the segmental data and the consolidated report in accordance with IFRS 8:

A. Segmental results

	Discontinued operations						
	Debenture from Dolphin IL	IDBG	IDB Tourism	Clal Holdings Insurance Enterprises NIS millions	Others ⁽¹⁾	Consolidation Others ⁽¹⁾ adjustments

As of December 31, 2019 (Audited)	975	920	783	443	58	(590)	2,589

- (1) Discontinued segment. See Note 3.H. above.
- (2) Including oil and gas assets.
- (3) In addition to the value of the debenture, as detailed above, the Chief Operating Decision Maker regularly receives information regarding the principal balance of the debenture and the accrued interest, and also regarding the value of the balance of DIC shares which are charged against the debenture. The Chief Operating Decision Maker is also given information regarding the asset value of investments which are directly held by DIC, and regarding its net debt. The asset value is calculated based on the value of DIC's investments, as follows: (A) In respect of non-marketable holdings according to their value in DIC's financial statements; (B) In respect of marketable holdings according to their average market value in the five trading days preceding the relevant date.

⁽²⁾ Includes gas and oil liabilities.

⁽³⁾ Including amounts of NIS 237 million and NIS 242 million as of June 30, 2019 and as of December 31, 2019, respectively, in respect of a commitment to Property & Building. See Note 3.D.1 to the financial statements and Note 3.D.2 to the annual financial statements for details.

Note 11 - Events Subsequent to the Date of the Statement of Financial Position

- A. See Note 3.B.3 and 3.B.8 above for details of developments regarding the Company's investment in Clal Holdings Insurance Enterprises Holdings.
- B. See Notes 4.I and 4.J above for details regarding the developments in connection with the Company's debentures.
- C. On July 1, 2020, Standard and Poors Ma'alot ratified the Company's rating of March 2020. See Note 4.E above for details.
- D. See Note 3.C.4 above for details regarding a loan with a guarantee from the State, which Israir received in July 2020.
- E. See Note 9 for details regarding developments in a lawsuit, which has been submitted against the Company.
- F. On August 5, 2020, the Company published a shelf prospectus based on the report for the first quarter of 2020. The Company may issue various types of securities, during a period of one year from the time of the publication of the prospectus, pursuant to the provisions of the law and including: non-convertible debentures (including by way of the expansion of existing and future series of the Company's debentures), option warrants that are exercisable into non-convertible debentures, marketable securities and any other security that may be issued pursuant to the law under the force of the prospectus at the relevant time. The issuance of the Company's regular shares, preference shares, debentures convertible into shares in the Company (including by way of the expansion of existing and future series of the Company's convertible debentures), option warrants that are exercisable into shares in the Company and option warrants that are exercisable into debentures that are exercisable into shares in the Company, will be subject to compliance with the regulations of the Tel-Aviv Stock Exchange Ltd. ("The Stock Exchange") and the various directives and provisions of the law and also to the amendment of the shelf prospectus, if and insofar as may be required ("The Securities Rules").

The Company may refer to the Securities Authority in advance of the end of the first year from the time of the publication of the shelf prospectus, with a request for the extension of the period of the prospectus for an additional year, and this in accordance with the provisions of the law. If the Securities Authority permits the extension of the period of the prospectus for an additional year, the Company may refer to the Securities Authority at the end of a period of two years from the time of the publication of the shelf prospectus, with a request for the extension of the period of the prospectus for a third year, and all this in accordance with the provisions of the law.

- G. Further to what is stated in Note 7.C.2 to the annual financial statements regarding a commitment that the Company has received from Dolphin Netherlands, for the execution of an injection of equity into the Company in an overall extent of NIS 210 million, of which a commitment to make injections in an overall extent of NIS 140 million in 2 payments of NIS 70 million each ("The commitment") remain, in August 2020, the Company received a letter from Dolphin Netherlands, in which it is stated as follows:
 - 1. In light of the fact that some of the Company's debenture holders are expected to include on the agenda of meetings of their holders a proposal to make the full amount of the Company's debt towards them repayable immediately, Dolphin Netherlands wishes to draw the Company's attention to the fact that pursuant to the terms of the commitment, these means endanger the flow of cash that the Company is expecting.
 - 2. As preparation for an additional injection of NIS 70 million on September 2, 2020, Dolphin Netherlands will examine its commitment to make additional injections, taking note of the questions that arise from the conduct and the intentions of the holders of the Company's debentures (as can also be learned from the opposition to the proposal to strengthen the Company's capital structure, which was presented to the Company and to the holders of the debentures (see Note 4.H. above for details)). Moreover, Dolphin Netherlands emphasized its growing concern that immediately after the transfer of such funds, and unfairly, the holder of the debentures will initiate insolvency proceedings against the Company.
 - 3. Dolphin Netherlands is of the opinion that it is correct to raise its concerns to the Company, giving reasonable warning in advance.

Note 11 - Events Subsequent to the Date of the Statement of Financial Position (Continued)

G. (Continued)

A letter from IRSA to Dolphin Netherlands was attached to Dolphin Netherland's letter, pursuant to which, inter alia, IRSA will consider the validity of its commitment towards Dolphin Netherlands to transfer to it (in accordance with Dolphin Netherlands' demand) the amounts that are required for Dolphin Netherlands for the purpose of compliance with its commitment to execute the injection on September 2, 2020 as aforesaid, and this pursuant to the developments and the intentions of the holders of the Company's debentures.

The Company has responded to Dolphin IL's and IRSA's letters in a letter on its behalf, in which it mentioned, inter alia, that within the context of the said commitment by Dolphin Netherlands, it was determined that the commitment is binding and irrevocable. However, the commitment will expire automatically, on the occurrence of any one of the events that were defined clearly within the framework of Dolphin Netherland's commitment, and which, as of the time of the writing of the Company's letter, had not occurred. Accordingly, the non-execution of the injection of equity into the Company, in light of other events that are connected to the holders of the Company's debentures, which do not fall within the boundaries of the events that are enumerated in the wording of the commitment, as causing the expiry of Dolphin Netherlands' commitment, as aforesaid, is not acceptable to the Company and it will not leave the Company any alternative to using the means and the rights that are available to it pursuant to the law for the purpose of enforcing Dolphin Netherlands's commitment and IRSA's commitment, see Note 7.C.2 to the annual financial statements) and that the Company is retaining its rights.

- H. Further to what is stated in Note 16.B.(3).(a) to the annual financial statements in connection with officers' liability insurance (the 2019 -2020 policy), regarding the Company's commitment under an officers' insurance policy, including officers who are controlling interests in the Company and/or their relatives (as they may be from time to time), for the period from April 1, 2019 up to and including July 31, 2020 ("The existing policy"), on August 13, 2020, (after the receipt of the approval of the Company's Remuneration Committee, the Audit Committee and Board of Directors had been received for this) a general meeting of the Company's shareholders approved the following resolutions:
 - 1. To approve and ratify the extension of the existing policies by an additional 14 days until August 14, 2020 (instead of July 31, 2020), without any change in the terms of the policy and in a proportionate additional premium (according to the premium that is set in the existing policy) in an amount of 22.5 thousand dollars.
 - 2. To exercise the right that is available to the Company within the framework of the Company's existing policy, and, to approve the purchase of insurance cover thereunder as from the end of the insurance period of the Company's existing officers' liability insurance policy (i.e. – as from August 15, 2020, "The determining time"), the said existing insurance policies will be expanded such that they will include a disclosure period and will afford insurance cover for the length of an additional disclosure period of seven years in connection with claims that are initially submitted during the said disclosure period in respect of acts done prior to the determining time. In other words – turning the current policy into a run-off type of quasi policy, with a period of seven years commencing from the time of the operation of the disclosure period in respect of events that have occurred from December 1, 2013 and up to and including August 14, 2020, and this within the framework of the same limits of liability that applied in the policy that ended on August 14, 2020 including the disclosure period of 7 years ("The expanded disclosure period"). The premium that will be paid for the expanded disclosure period, as aforesaid, is approximately 1.3 million dollars (non-recurring). The Company, DIC and Property & Building will pay a relative premium (pro-rata) for the share attributed to Shufersal (which does not participate in the operation of the expanded disclosure period).
 - 3. To approve a commitment under an officers' insurance policy, including officers who are interested parties in the Company and/or their relatives (as they may be from time to time) with Clal Insurance Company Ltd. ("Clal Insurance") and a group of insurers in the international insurance market for a period from August 15, 2020 up to and including August 14, 2021 ("The new insurance period"). The commitment will be under a basic officer's insurance policy, that is common to the Company and to certain wholly owned companies, with a limit of liability of up to 20 million US dollars per claim and cumulatively ("The new basic policy"), with the addition of additional reasonable defense expenses even beyond the said limit of liability, if the total loss, including the defense expenses exceeds such limit of liability.

Note 11 - Events Subsequent to the Date of the Statement of Financial Position (Continued)

H. (Continued)

3. (Continued)

The new base policy will be arranged in parallel with basic and separate insurance policies that will be arranged by Discount Investment Corporation and by companies that are wholly owned by it and by Property & Building (and by certain of its investee companies), under similar terms. The basic insurance policy (as well as each of the basic policies of DIC and Property & Building) set a condition pursuant to which the insurer's liability in relation to a claim that is common to two or more of the said policies may not exceed the said limit of liability, i.e. in excess of 20 million dollars.

The self-deductible in respect of each claim within the framework of the new basic policy is 150 thousand dollars (except in the case of a claim that is submitted in the United States or in Canada, on any matter that is connected to securities law, in which case the amount of the self-deductible is 500 thousand dollars; or 350 thousand dollars, insofar as it is another claim that is submitted in the United States or in Canada). The insurance premiums that will be paid by the Company in respect of the new basic policy for the new insurance period with a limit of liability of up to NIS 20 million, is an amount of approximately 1.1 million dollars (inclusive of Clal Insurance's handling fees (fronting fees) at a rate of 10% in relation to 60% of the overall premium).

- 4. To empower the Company's management to take action to expand the limit of liability in relation to the new basic policy to an extend of up to 50 million dollars (including the existing 20 million dollars as set forth above) in consideration for the payment of an additional premium, such that the overall total annual premium in respect of the new basic policy will stand at an amount of approximately 2.1 million dollars.
- I. See Note 4.J above for details regarding decisions by meetings of the holders of the debentures (Series N and O) to call meetings of the debenture holders, in connection with the making of decisions regarding calling for the immediate repayment of the unsettled balance of the debt vis-à-vis the holders of the debentures of those series.
